7. Recommendations by NCRC.................................................145
The curriculum, with varying definitions, is said to be a plan of the teaching-learning process that students of an academic programme are required to undergo. It includes objectives & learning outcomes, course contents, scheme of studies, teaching methodologies and methods of assessment of learning. Since knowledge in all disciplines and fields is expanding at a fast pace and new disciplines are also emerging; it is imperative that curricula be developed and revised accordingly.

University Grants Commission (UGC) was designated as the competent authority to develop, review and revise curricula beyond Class-XII vide Section 3, Sub-Section 2 (ii), Act of Parliament No. X of 1976 titled “Supervision of Curricula and Textbooks and Maintenance of Standard of Education”. With the repeal of UGC Act, the same function was assigned to the Higher Education Commission (HEC) under its Ordinance of 2002, Section 10, Sub-Section 1 (v).

In compliance with the above provisions, the Curriculum Division of HEC undertakes the revision of curricula after every three years through respective National Curriculum Revision Committees (NCRCs) which consist of eminent professors and researchers of relevant fields from public and private sector universities, R&D organizations, councils, industry and civil society by seeking nominations from their organizations to develop an experienced NCRC team for this important national academic cause.

In order to impart quality education which is at par with international standards, HEC NCRCs have developed unified templates as guidelines for the development and revision of curricula in the disciplines of Basic Sciences, Applied Sciences, Social Sciences, Agriculture, Business Education and Engineering in 2007 and 2009 onward.

It is hoped that this curriculum document, prepared by the National Curriculum Revision Committee for Commerce, would serve the purpose to meet our national, social and economic needs, and it would also provide the level of competency specified in Pakistan Qualification Framework to make it compatible with international educational standards. We appreciate the efforts and contributions of the Convener and his team members for this academic cause.

The curriculum is also placed on the website of HEC (www.hec.gov.pk) for consultation and implementation in the Departments of Commerce in Universities of Pakistan.

Ms. Maryam Gull, Lecturer, Department of Management Science, Lahore College for Women University, Jail Road, Lahore. Member

The meeting started with the recitation of some verses from the Holy Quran by Mr. Abid Wahab Assistant Director HEC. Mr. Nazeer Hussain, Director, HEC Regional Centre, Lahore, welcomed the participants on behalf of the Chairman, HEC, Prof. Dr. Mukhtar Ahmed. In his opening remarks, he expressed his pleasure over the worthy participation of academia from all over the country. He also pointed out the need to prepare the curriculum for 4 years BS/BCom (Hons) in Commerce. He emphasized the need of standardized curricula for all HEC recognized Universities/Institutes for quality education and uniformity at the national level. He stated the importance of the programme, and emphasized that, in order to compete with the international universities, it is essential to introduce 4 years integrated BS/BCom (Hons) programme. This will facilitate our students to continue higher education abroad and compete for international job market.

The committee made the courses more balanced by realigning the course contents to modern requisites by way of including both commerce as well as social sciences subjects for versatile professional and character development of the students. The Layout for BS/BCom (Hons) 4 years was also developed after rigorous brainstorming among all the members of the meeting and consequently, all the Courses were classified into Compulsory, General, and Discipline Specific Courses in Commerce. General courses in social sciences and humanities were introduced for the purposes of producing the effective leaders in commerce to meet the challenges of the 21st century. The participants represented the academicians/professors from the universities of all the provinces of the country.

The Committee as a team, tried its level best to assure the highest standards of quality education keeping contemporary issues in due consideration. All the members bequeathed valuable suggestions, which were incorporated in a congenial manner to sustain the competitiveness at par with international and professional educational standards. The heart of this endeavor lies in aptly bridging the fissure between theory and practice vis-à-vis commerce education so that the prospective graduates could be well-equipped and more confident in capturing the jobs or initiating an entrepreneurial activity in this more challenging and more globalized professional era. Our team didn’t include members with only formal education but also members with professional education including CA and CMA, who while devising the curricula attempted to maintaining the gap between formal academic
education and professional education to its minimum, and in making it equitable to its maximum.

The Chair/Convener, National Curriculum Revision Committee (NCRC) Commerce appreciated the efforts of HEC for arranging regular meetings for the revision of curricula in the larger interest of the academic needs of our country and hoped this practice will continue constructively to bring the subject at par with the developed world arena as well as with developing countries, up to the desired extent.

The committee finalized the Curriculum of Commerce at Graduate as well as Post-graduate Level in the light of suggestions/comments received from the NCRC members right from the previous meetings to this last meeting at HEC Regional Centre, Lahore.

At the end of meeting, Prof. Dr. Mushtaq Ahmed Sajid, Convener, thanked the committee members for their valuable time and suggestions and he appreciated the efforts of Mr. Muhammad Mubashir Hussain, Secretary of the meeting NCRC, Commerce for his valuable contributions. The Chair presented token of appreciations to HEC team for splendid cooperation. The NCRC in the discipline of Commerce comprising senior university professors/faculty members and other professional experts and respected members of accreditation council (NBEAC) has finalized the curriculum for undergraduate BS/BCom (Hons) and graduate (MS Commerce) programmes for implementation in the public and private universities of Pakistan in their faculties of Business and Commerce.

**Objectives**

This course is aimed at:
1. To provide basic information about Islamic Studies
2. To enhance understanding of the students regarding Islamic Civilization
3. To improve Students skill to perform prayers and other worships
4. To enhance the skill of the students for understanding of issues related to Faith and Religious Life.
5. To develop a concrete understanding about divine and explicit Verses, Mandates, Provisions concerning permissible Methods and Modes of Islamic Trade and Commerce

1. **INTRODUCTION TO QURANIC STUDIES**
   1.1 Basic Concepts of Quran
   1.2 History of Quran
   1.3 Ulloom-ul –Quran

2. **STUDY OF SELECTED TEXT OF HOLLY QURAN**
   2.1 Verses of Surah Al-Baqra Related to Faith (Verse No-284-286)
   2.2 Verses of Surah Al-Hujrat Related to Adab Al-Nabi (Verse No-1-18)
   2.3 Verses of Surah Al-Mumanoon Related to Characteristics of faithful (Verse No-1-11)
   2.4 Verses of Surah al-Furqan Related to Social Ethics (Verse No.63-77)
   2.5 Verses of Surah Al-Inam Related to Ihkam (Verse No-152-154)

3. **STUDY OF SELECTED TEXT OF HOLLY QURAN**
   3.1 Verses of Surah Al-Ihzab Related to Adab al-Nabi (Verse No.6,21,40,56,57,58.)
   3.2 Verses of Surah Al-Hashar (18,19,20) Related to thinking, Day of Judgment
   3.3 Verses of Surah Al-Saf Related to Tafakar, Tadabar (Verse No-1,14)

4. **SEERAT OF HOLY PROPHET (S.A.W.W)-I**
   4.1 Life of Muhammad Bin Abdullah (Before Prophet Hood)
   4.2 Life of Holy Prophet (S.A.W.W.) in Makkah
4.3 Important Lessons Derived from the life of Holy Prophet (S.A.W.W.) in Makkah

5. SEERAT OF HOLY PROPHET (S.A.W.W.)-II

5.1 Life of Holy Prophet (S.A.W.W.) in Madina
5.2 Important Events of Life Holy Prophet (S.A.W.W.) in Madina
5.3 Important Lessons Derived from the life of Holy Prophet (S.A.W.W.) in Madina

6. INTRODUCTION TO SUNNAH

6.1 Basic Concepts of Hadith
6.2 History of Hadith
6.3 Kinds of Hadith
6.4 Uloom –ul-Hadith
6.5 Sunnah & Hadith
6.6 Legal Position of Sunnah

7. SELECTED STUDY FROM TEXT OF HADITH

8. INTRODUCTION TO ISLAMIC LAW & JURISPRUDENCE

8.1 Basic Concepts of Islamic Law & Jurisprudence
8.2 History & Importance of Islamic Law & Jurisprudence
8.3 Sources of Islamic Law & Jurisprudence
8.4 Nature of Differences in Islamic Law
8.5 Islam and Sectarianism

9. ISLAMIC CULTURE & CIVILIZATION

9.1 Basic Concepts of Islamic Culture & Civilization
9.2 Historical Development of Islamic Culture & Civilization
9.3 Characteristics of Islamic Culture & Civilization
9.4 Islamic Culture & Civilization and Contemporary Issues

10. ISLAM & SCIENCE

10.1 Basic Concepts of Islam & Science
10.2 Contributions of Muslims in the Development of Science
10.3 Quran & Science

11. ISLAMIC ECONOMIC SYSTEM

11.1 Basic Concepts of Islamic Economic System
11.2 Means of Distribution of wealth in Islamic Economics
11.3 Islamic Concept of Riba
11.4 Islamic Ways of Trade & Commerce
12. POLITICAL SYSTEM OF ISLAM

12.1 Basic Concepts of Islamic Political System
12.2 Islamic Concept of Sovereignty
12.3 Basic Institutions of Govt. in Islam

13. ISLAMIC HISTORY

13.1 Period of Khlaft-E-Rashida
13.2 Period of Ummayyads
13.3 Period of Abbasids

14. SOCIAL SYSTEM OF ISLAM

14.1 Basic Concepts of Social System of Islam
14.2 Elements of Family
14.3 Ethical Values of Islam

15. VERSES AND HADITH CONCERNING EXCHANGE, TRADE AND COMMERCE

15.1 Islamic Provisions and Mandates about permitted Modes of Trade and Commerce
15.2 Selected Verses from the Holy Qur’an about Trade and Commerce
15.3 Extracts from Hadith about Trade and Commerce
15.4 Real Life Examples from the lives of Prophets and Saints

  • Improve Presentation and Listening Skills |

1. INTRODUCTION
1.1 Basics of Grammar
1.2 Parts of speech, and Types and Use of Articles
1.3 Sentence Structure, Active and Passive Voice
1.4 Practice in Unified Sentence
1.5 Analysis of phrase, clause and sentence structure
1.6 Transitive and intransitive verbs
1.7 Punctuation and spelling

2. WORD POWER
2.1 Synonyms (Particularly Business-related Contemporary Words)
2.2 Antonyms
2.3 Homonyms
2.4 One word Substitution
2.5 Use of Prepositions
2.6 Words often confused (Pairs of Words)
2.7 Verbal Phrases and Idiomatic Phrases (including Phrasal Verbs)
2.8 Phrases – types and functions, and Clauses – types and functions

3. COMPREHENSION
3.1 Answers to questions on a given text

4. DISCUSSION
4.1 General topics and every-day conversation (topics for discussion to be at the discretion of the teacher keeping in view the level of students)
5. LISTENING

5.1 To be improved by showing documentaries/films carefully selected by subject teachers

6. TRANSLATION SKILLS

6.1 Urdu to English

7. PARAGRAPH WRITING

7.1 Topics to be chosen at the discretion of the teacher

8. PRESENTATION SKILLS

8.1 Introduction
8.2 General, and Topic-specific Presentation
8.3 Use of Technological Gadgets during Presentations

Recommended Books:

1. Functional English
   a) Grammar
   b) Writing
   c) Reading/Comprehension
   d) Speaking – Exercises and Practice of Presentation

Reference Books:

1. High School English Grammar and Composition by P.C. Wren and H. Martin
3. Understanding and Using English Grammar by Betty Schramfer Azar
4. Mastering English Grammar by S. H. Burton

**Objectives**

- To acquaint students with full range of functions of business organizations
- To apprehend about Businessman and Entrepreneurial Activities
- To make students well aware of various Legal Forms of a Business, and about their respective Pros and Cons
- To know about the various Resources desired for a successful business, and the Sources of Finance
- To familiarize students with Pattern, Practices, Operational Factors etc. for operating domestically and/or internationally

**COURSE OUTLINE**

1. **BUSINESS**

   1.1 Scope, Importance and Functions, Entrepreneurial Qualities of a Businessman
   1.2 Business Environment and Social Responsibility
   1.3 Role of business in Economic Progress of the country
   1.4 Problems of a Business and Business Environment

2. **FORMS OF BUSINESS ORGANIZATION**

   2.1 Sole-proprietorship Nature, Scope, Advantages and Disadvantages
   2.2 Partnership - Classification of Partnership, Advantages and Disadvantages, Rights, Duties and Liabilities of Partners, Kinds of partners, and Dissolution of Partnership and Firm
   2.3 Joint Stock Company –Types / Classification, Formation, Memorandum of Association, Articles of Association, Prospectus, Capital Management, Meetings and Winding up Features, Merits and Demerits, Management of the Companies.
3. COOPERATIVE OWNERSHIP AND BUSINESS COMBINATIONS

3.1 Meanings, Types of Cooperatives, Advantages and Disadvantages.
3.2 Business Combination: Meaning, Types and Forms, Causes and Purposes, Advantages and Disadvantages.

4. ENTREPRENEURSHIP

4.1 Meanings/Definition, Nature, Features, Scope, Pros and Cons
4.2 Differences and Similarities between a Businessman and an Entrepreneur, Competitive Advantage of organizations having Entrepreneurial Edge
4.3 Real World Examples, Prospects for Entrepreneurs in Pakistan, Need for Entrepreneurial Education and Activities

5. INTERMEDIATION / MIDDLEMANSHP

5.1 Meanings/Definition, Nature, Rationale/Theme, Features, Scope, Pros and Cons
5.2 Differences and Similarities between a Businessman and a Middleman
5.3 Real World Examples, Prospects for Intermediation in Pakistan, Need for Intermediation Education and Activities

6. FINANCE

6.1 Definition, Components, Importance, Kinds and Sources
6.2 Long Term and Short Term Financing.
6.3 Some Important Financial Institutions and Regulatory Bodies.
6.5 Risk and Risk Management: Insurance, Protection against Risks, Importance and Types of Insurance, Types of Risks.

7. MARKETING

7.1 Process of Marketing, Definition, Functions and Scope, Approaches to the Study of Marketing.
7.2 Marketing Mix for Physical Goods and Service Products, and Importance.
7.3 Channels of Distribution for Consumer Good and Organizational Goods.
7.4 Marketing Communication and Promotion, Advertising, Personal Selling, Sales Promotion, Public Relation, Packaging.

8. TRADE

8.1 Wholesale and Retail, Meaning, Importance, Functions, Advantages and Disadvantages.
8.2 Foreign Trade, Imports and Exports, Role in Economic Development of the Country.

9. PHYSICAL FACTORS

9.1 Selecting Business Location, Factors Influencing Locations, Small Business, VS Large Business
9.2 Purchasing and Inventory Control Coordination of Purchasing with Sales, Organization of Purchasing Department, Centralize vs. Decentralize Purchasing, Purchasing Policies and Procedure Inventory Control.

10. THE PERSONEL DEPARTMENT

10.1 Employment Division, Recovering, Placement Promotion.
10.2 Wages and Salary Section, Analysis & Job Classification, Pay Scales.
10.3 Training Program, Apprentice, Supervisory etc.

11. BUSINESS CYCLE, AND INFORMATION TECHNOLOGY

11.1 Definition/meaning, and the Existence in the real world.
11.2 Wage Iterative Stages/Segments of Business Cycle.
11.3 Definition/meaning, Scope & Role of IT in Business
11.4 E-Business, and E-Commerce, and their respective Scope & Role
11.5 Business IT Domains/Orientations including: B2C, C2C, C2B etc.

12. OPERATING IN INTERNATIONAL/GLOBAL ENVIRONMENT

12.1 Definition/meaning of International / Global Operations / Business.
12.2 Reasons, and Scope of International/Global Operations/Business.
12.3 Environment and Challenges for International/Global Operations/Business.
Recommended Books:
1. Rober C. Appleby, Modern Business Administration
2. Theodre J. Sielaff & Belmont, Introduction to Business, California

Reference Books:
4. Introduction to Business by ‘M. Saeed Nasir’.

Objectives
- To provide students with an understanding of the basic Mathematical and Financial Techniques used in Business Enterprises or Accountancy Profession through application of techniques rather than its theoretical aspect.
- To equip students with Mathematical Skills and Knowledge that can be applied to solve Financial Problems in field of Accountancy

COURSE OUTLINE

1. USE OF RATIOS, PROPORTION AND PERCENTAGE IN REAL WORLD SCENARIOS
   Ratios: Types, Solution, Use and Scope in Business Environment
   Proportions: Types, Solution, Use and Scope in Business Environment
   Percentage: Solution, Use and Scope e.g. Mechanics of “C+P=S”

2. EQUATIONS, AND THEIR USE IN BUSINESS/PROFESSIONAL ENVIRONMENT
   One-Variable Equations: Solution of First and Second Degree Equations in One Variable
   Linear Equations: Algebraic and Graphical Characteristics, Slope-Intercept Form, Determining the Equation of a Straight Line, Linear Equations Involving More Than Two Variables

   Systems of Linear Equations
   Two, Three and n-variable systems and their graphical and algebraic solutions

3. MATHEMATICAL FUNCTIONS
   Definition, Types and Graphical Representation of Functions, Linear Cost, Revenue and Profit Functions

4. MATHEMATICS OF FINANCE
   Interest and its Computation, Single Payment Computations, Annuities and Their Present/Future Value and Practical Use of all Interest Mechanisms, Cost Benefit Analysis
5. MATRIX ALGEBRA
Introduction, Simple and Special Types of Matrices, Basic Matrix Operations. The Determinant, Inverse, Solution of System of Linear Equations using Matrices, and Use of Matrix Algebra in Business/Profession.

6. DIFFERENTIATION
Limits: Properties and Continuity; Average Rate of Change, the Derivative, Differentiation, Higher-order Derivative, Optimization, Identification of Maxima and Minima, Application on Revenue, Cost, and Profit

7. SEQUENCE, SERIES AND PROGRESSION

8. LINEAR PROGRAMMING, AND ITS APPLICATION IN REAL WORLD
Introduction, Linear programming for Constraints Optimization, Scenarios for Linear programming, and their solution, Techniques/Methods for solving Linear Programming Problems: Graphical Method and Simplex Method

Objectives
- To develop vision of historical perspective, government, politics, contemporary Pakistani Issues/ Problems/ Challenges,
- To go through the Ideological background of Pakistan.
- To study the process of governance, national development,
- To study the Issues arising in the modern age and posing challenges to Pakistan
COURSE OUTLINE

1. THE CREATION OF PAKISTAN
   Reason for Creation of Pakistan; Evolution and Development of Two-nations Theory; The Role of Two Nation of Theory in the formation of Pakistan; Any other associated concepts.

2. HISTORICAL PERSPECTIVE
   a. Ideological rationale with special reference to Sir Syed Ahmed Khan, Dr. Allama Muhammad Iqbal and Quaid-e-Azam Muhammad Ali Jinnah.
   b. The development of ideology of Pakistan in the pre- and post-independence of Pakistan
   c. Factors leading to Muslim separatism
   d. People and Land
      i. Indus Civilization
      ii. Muslim advent
      iii. Location and geo-physical features.

3. GOVERNMENT AND POLITICS IN PAKISTAN
   Political and constitutional phases:
   a. 1947-58
   b. 1958-71
   c. 1971-77
   d. 1977-88
   e. 1988-9
   f. 1999-08
   g. 2008-13
   h. 2013 onwards

4. CONTEMPORARY ISSUES IN PAKISTAN
   a. Economic institutions and issues
   b. Society and Social Structure
   c. Ethnicity
   d. Foreign Policy of Pakistan and challenges
   e. Prospective Outlook of Pakistan

| Objectives             | • To develop awareness about Computer Hardware and Peripherals; Concepts regarding Software – its Types, Basic Operations, Basic OS Concepts, OS Installation  
                           • To develop Advanced User Level Skills in various Application Packages: MS Word, MS Access, MS Excel, and MS PowerPoint  
                           • To set-up a Computer for World Wide Web connection; Use e-mail to send / receive messages and file attachments; Concepts of On-line group Discussion. |              |   |

**COURSE OUTLINE**

1. **INTRODUCTION TO COMPUTERS**
   
   Definition/Meaning of Computer, its Characteristics, History, Generations of Computers; Computer Hardware and its Peripherals, New Hardware and Peripheral’s Installation. (Hands-On), Basic Architecture of Computer System; Software – its Types, Basic Operations. General Installation guidelines. (Hands-On); Concepts of Computer Virus, Worms, Hacking, Spam etc. and Use of Anti-virus Techniques/Software

2. **INTRODUCTION TO OPERATING SYSTEM (MICROSOFT WINDOWS XP or other Latest)**

   Basic concepts regarding Systems Software and OS, and OS (Windows) Installation, Repair, Recovery

   Using Windows Environment. (Hands-On)  
   • Windows XP or other Features  
   • Start Menu, Task Bar, System Tray  
   • Control Panel, its basic items  
   • Printing  
   • Managing Files and Folders  
   • Windows Explorer  
   • Opening Documents / Files  
   • Copying and Moving Files  
   • Deleting Files and Folders  
   • Controlling the View Detail Level  
   • Customizing the Tool Bars
3. WORD PROCESSING BASICS
Types of Documents created with a Word Processing Program (MS Word); An overview of the Menus in MS Word; Principal Features of a Word Processing Program (Hands-On); In-depth Knowledge and Competence on various operations of MS Word

4. SPREADSHEET APPLICATIONS
Spreadsheet basics, its vocabulary, and principles; Usage of functions, macros, sorting, formatting, generating charts, pivot tables.
Financial Management related Formula’s Implementation and Statistics related Formula’s Implementation.
Cell Formatting, Print Previewing / Printing of selected Data; Insert and Name Worksheets; Import Spreadsheet Reports and Charts into Word Processing Documents; Set up and Analyze Itemized lists of numbers e.g. various types of budgets / financial statements; concept of Financial Modelling on worksheet.

5. DATABASE APPLICATIONS
Define the Purpose, and Components of Database; Plan a simple Two-table Database; Cardinality of Relationship; Creating Tables; Creating Relations of the Tables; Use Wizards to enter and to search Data; To create a Report; Enter Data in a form; Creating Module using Microsoft Access; Using simple Queries in Wizard; Privacy / Security Issues related to Databases; Create Data Base Using Microsoft SQL Server 2000 or latest.

6. PRESENTATIONS THROUGH POWERPOINT
Examine Purpose, Examples of a Presentation; Explain Components of a Presentation; Outline a Presentation and Apply good Design Principles; Apply and Modify a Design Template; Add Clip Art, Charts, SOUND to a presentation; Formatting a slide Show; Applying Slide Background, Color, Style, Transitions – visual, text; Running a Slide Show

7. BASICS OF NETWORKING
- Use of Networks; Its Common Types/Classes
- Data Communication Modes; Using Telephone Lines, Modems
- Wireless Networks
- Network Security Issues

8. INTERNET & E-MAIL BASICS
- Introduction to the Internet, the terminology, its advantages and disadvantages; Security on the Internet – Tools & Tips; IT Issues; Privacy; Ethics and Legal Framework.

**Objectives**

This course is meant to provide students with an understanding of the basic Statistical Techniques for descriptive and inferential data analysis, which will be useful and helpful in their specialized areas including Finance, Accounting and Management for better analysis and optimal Decision-making with given conditions and constraints.

**COURSE OUTLINE**

1. **INTRODUCTION TO STATISTICS**

   Broad overview of the subject of Statistics and its applications; Uncertainty, Sampling, Population, and Samples; Distinction between descriptive and inferential statistics; Statistical thinking; Importance and pitfalls of spreadsheet programs like Microsoft Excel and SPSS.

2. **DESCRIBING DATA: GRAPHICAL**

   Types of data and classify variables; How to organize numerical data; Tables and charts for numerical data; Tables and charts for categorical data

3. **DESCRIBING DATA: NUMERICAL**

   Central tendency in numerical data (Measures of Location); Variations in numerical data (Measures of Dispersion); Descriptive summary measures from a population (Sampling Techniques)

4. **PROBABILITY**

   Basic probability concepts; Classification/Forms of Probability; Conditional probability and statistical independence; Use of Bayes' theorem to revise probabilities in the light of new information

5. **DISCRETE RANDOM VARIABLES & PROBABILITY DISTRIBUTIONS**

   Understanding of the basic concepts of discrete probability distributions and their characteristics; Concept of mathematical expectations in relation to discrete random variables; Binomial distribution and its application; Poisson distribution and its application; Hypergeometric distribution and its application; Joint probability distributions and their application
CONTINUOUS RANDOM VARIABLES & PROBABILITY DISTRIBUTIONS

Normal probability distribution and its use in representing certain continuous variables; Normal probability in assessing Normality; Exponential distribution; Normal approximation to the Binomial distribution

LINEAR REGRESSION AND CORRELATION

Concept of Strength and Direction of Relationship; Scatter Diagram and its use; Coefficient of Correlation (Simple, Partial and Multiple); Simple and Multiple Linear Regression; Coefficient of Determination

SAMPLING AND SAMPLING DISTRIBUTIONS

Concept of sampling distributions; Central limit theorem; Developing the framework for statistical inference

STATISTICAL COMPUTING:

Excel and Minitab; Using MS Excel and Minitab for the above-mentioned techniques

**Objectives**

This course is intended to:
- Acquaint students with Legal System of Pakistan
- Familiarize the students with the different Mercantile Laws affecting the economic and business environment in Pakistan.
- Make students understand the important elements and aspects of business and industrial laws.
- Enable the students to assess the nature and Impact of certain types of rules and regulations by analyzing the cases referred to in the recommended books/sources.
- Equip the students with the necessary skills and aptitude to deal tactfully with the legal situations arising out of business routine matters.

## COURSE OUTLINE

### 1. LEGAL SYSTEM OF PAKISTAN

Meaning of Legal System; Major Components / Divisions of Legal System of Pakistan; Comprehensive Analysis of Legal System of Pakistan; Factors of Economic Development w.r.t to Pakistan; Various Measures / Strategies to enhance Economic Growth

### 2. BUSINESS LAW

Nature of Business Law; Major Sources of Business Law; Application / Use of Business Law;

### 3. CONTRACT ACT, 1872

Proposal and Acceptance including Legal Definition, and Meaning, Communication of Offer and Acceptance, Revocation of Offer and Acceptance;

Legal Rules pertaining to Consideration, and Exceptions thereof, Major Types of Void Agreements.
Flaws in Contracts, Free Consent, and its Flaws (Coercion, Undue Influence etc.), Doctrine of Frustration of Contract.

Quasi Contract, and its Types, Contingent Contract, and its Types, Performance of Contracts including Reciprocal Promises

Breach and Discharge of Contracts, Remedies for Breach of Contract

Contracts of Indemnity and Guarantee covering Legal Definition, Meaning, and Difference, Rights and Liabilities of Indemnity-holder, Consideration for Guarantee, Nature and Extent of Surety’s Liability, Continuing Guarantee, and its Revocation, Rights of Surety, Discharge of Surety from Liability

Law of Agency covering Legal Definition, and Meaning, General Rules of Agency, Eligibility to employ an Agent, and Eligibility to become an Agent, Necessity of Consideration for Agency, Classification of Agents, Modes of Creation of Agency, Extent of Agent’s Authority, and Delegation of Authority, Distinction between Sub-agent and Substituted Agent, Duties and Rights of Agent, Personal Liability of Agent to Third Parties, Rights and Duties of Principal, Liability of Un-named, and Un-disclosed Principal, Modes of Termination of Agency

Bailment and Pledge including Essential features, and parties; Rights and duties of parties; Termination of pledge and Bailment

4. PARTNERSHIP ACT, 1932

Nature of Partnership including Legal Definition, and Meaning of Partnership and Firm, Essential Elements

Formation of Partnership, and Ancillary Provisions; Pre-requisites to form Partnership, Partnership Deed, and its Constituents, Classification of Partnership, Kinds of Partners, Status of a Minor admitted to the Benefits of Partnership, Registration of a Firm, and its Rationale (i.e. Effects of Non-registration), Rights and Duties of Partners, Relations of Partners to Third Parties, and Liabilities thereto, Incoming and Outgoing partners

Dissolution of Partnership Firm covering Dissolution of Partnership, and Dissolution of Firm, Modes of Dissolution of a Firm, Classification of Partnership, Kinds of Partners, Status of a Minor admitted to the Benefits of Partnership

5. SALE OF GOODS ACT, 1930

Conditions and Warranties covering, Legal Definition of Condition and Warranty, The Distinction between them thereof, Conditions and Warranties (Express and Implied) in a Contract of Sale

Provisions pertaining to ‘Transfer of Property’

Performance of a Contract of Sale including Legal Definition, and Meaning of ‘Performance’ in a Contract of Sale, Modes of Delivery, Acceptance of Delivery by Buyer, Sale by non-owner

6. NEGOTIABLE INSTRUMENTS, 1881

Nature and Meaning of Negotiable Instruments including Legal Definition, and Meaning of a Negotiable Instruments, Characteristics of Negotiable Instruments, Presumptions as to Negotiable Instruments

Classification (Kinds) of Negotiable Instruments; Promissory Notes Definition, and Essential Elements, Bill of Exchange Definition, and Essential Elements, Cheque Definition, and Essential Elements, Hundi Definition, and Meanings

Parties to Negotiable Instruments: Holder Meanings, and Features; Holder-in-due-course Meanings, and Features; Capacity of Parties

Presentment of Negotiable Instruments: Presentment for Acceptance; Presentment for Sight; Presentment for Payment

Negotiation of Negotiable Instruments: Definition, Eligibility for Negotiation, and Duration of Negotiability; Distinction between Negotiation and Assignment; Modes of Negotiation; Endorsement, and its Kind

Dishonor and Discharge of Negotiable Instruments: Definition, and Meaning of Dishonor and Discharge; Modes of Dishonor (Non-acceptance and Non-payment); Discharge of the Instruments and the Parties; Modes of Negotiation

Banker and Customer Relation (Legal): Definition, and Meaning of Banker and Customer

Crossing of Cheques, and its Types; Bouncing of Cheques (Provisions from Banking Law / Circulars)

**COURSE OUTLINE**

1. **Introduction to Technical Writing and its Contingent Errors**
   Meanings of Technical Writing; Writing Memos (Memorandum); Writing a long and a short report; News Releases and Company Policies; Editing for errors in sentence construction (Articles, parts of speech, dangling parts etc.; Identifying Articles, and Parts of Speech, and their Correct Use

2. **Dialogue Writing and Role-Plays (Foreword to Uninhibited Presentations)**
   Everyday situations contextualized with colloquial communication; Basic Principles of Business Communication including 7 Cs of Effective Communication; Dialogue writing and Role Plays in Daily and Business Situations

3. **Précis Writing and Authentic Summarization**
   Meanings and Important points of Paragraphs; Identifying thesis statement; Identifying evidence and biases; Writing an effective précis

4. **Comprehension Skills**
   Introduction; General Features and Components of a Comprehension Passage; General Classification of Passages (discursive, persuasive, narrative etc.; Attempting comprehension questions; Making accurate inferences
5. Creative Writing and Effective Brainstorming

Defining and understanding Creative Writing; The Need Use and Significance of Creative Writing in Publications; How to effectively convey the imaginative ideas in coherent writing

6. Presentation Skills and Body Language

Personality Development (emphasis on content, style and pronunciation); Professional presentations; Using presentation software tools; Delivering short addresses / speeches; Extempore speech; Technical communication; Handling telephonic and email communication; Interviewing Skills; Group discussions; Communication through role-playing; Updating Knowledge Power; Utilizing Library Sources for Presentation Knowledge Power

7. Feedback and Reflection

Assessment of Students Learning through revision exercises; Feedback by students on their constructive learning of the course; Reflection for future pursuits

8. Essay writing

Descriptive, narrative, discursive, and argumentative

9. Academic writing

How to write a proposal for research paper/term paper; How to write a research paper/term paper (emphasis on style, content, language, form, clarity, consistency); Circulars and S.R.O. by the Government and Regulatory Institutions

10. Technical Report writing

11. Progress Report writing

Note: Extensive reading of Business–related Sections Newspapers is required for vocabulary building

Recommended books:

Technical Writing and Presentation Skills

a) Essay Writing and Academic Writing

b) Presentation Skills
c) Reading

The Mercury Reader. A Custom Publication. Compiled by northern Illinois University. General Latest Editors: Janice Neulib; Kathleen Shine Cain; Stephen Ruffus and Maurice Scharton. (A reader which will give students exposure to the best of twentieth century literature, without taxing the taste of engineering students).

<th>INTRODUCTION TO BUSINESS FINANCE</th>
<th>Credit Hours</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-Requisite</td>
<td>NONE</td>
<td>Semester</td>
<td>III</td>
</tr>
</tbody>
</table>

Objectives

This course is intended to create/produce:
- an understanding of an integrated perspective for the inter-relation between financial markets, financial institutions and management
- an understanding about the use/scope of Finance, Financial Management, and Financial Management Decision Making Techniques
- Competence about the latest approaches/tools to critically examine and measure the performance of business concerns
- Skills to solve investment and financial problems in the light of specified goals of the firm

COURSE OUTLINE

1. INTRODUCTION TO FINANCE

Meanings of Finance and Financial Management; Career opportunities in finance; Forms of business organization; Goals of the corporation; Agency relationships.
Financial Statements: Balance sheet; Income statement; Statement of cash flows (IAS 7); Accounting income vs. cash flow; Personal taxes; Corporate taxes

Analysis of Financial Statements and their Use: Ratio analysis; Du Pont system; Effects of improving ratios; Limitations of ratio analysis; Qualitative factors;

Forecasting Techniques: Forecasting sales; Projecting the assets needed to support sales; Projecting internally generated funds; Projecting outside funds needed; Deciding how to raise funds; Seeing the effects of a plan on ratios

Efficient Market Hypothesis and its Implication

2. TIME VALUE OF MONEY

The Role of Time Value in Finance; Time Value w.r.t. Single Amounts (Future Value and Present Value) including Simple Interest Mechanism and Compound Interest Mechanism

Time Value w.r.t. Compact Stream of Cash Flows i.e. Annuities (Future Value and Present Value) including Ordinary/Simple Annuity, Annuity Due/Outstanding, and Perpetuity

Time Value w.r.t. Mixed Stream of Cash Flows (Future Value and Present Value);

Practical Implication of Time Value of Money covering Intra-year Compounding; Nominal Vs Effective Rate of Interest; Continuous Compounding; Funds Accumulation through Regular Deposits; Loan Amortization; Finding Interest / Growth Rates.

3. FINANCIAL ASSETS / SECURITIES, AND THEIR VALUATION

Meaning and Understanding about Financial Assets; Primary Features of Financial Assets; Basic Model (Formula) / Mechanics of Valuing a Financial Asset / Security; Fundamentals of Interest Rate including Interest Rate, Required Rate (of Return), Inflation, Real Vs Nominal Rate of Interest (Return)

Term Structure of Interest Rates including Yield Curve and its Dimensions, and Yield to Maturity (YTM)

Risk and Risk Premium; Major Types of Risk w.r.t. Debt-specific Risk Premium Components (Issuer- & Issuer-related); Default, Maturity, Contractual Provision

Corporate Bonds; Nature, Definition, Features and Components, Cost of Bonds to the Issuer, Valuation of a Bond (Pricing of a Bond) – Model and
Sensitivity Analysis (Price Changes); Common Types of Bonds, and their respective Features;

Stocks, and Equity; Nature, Definition, Features and Components; Debt Vs Equity; Common Stock Vs Preferred Stock; Preferred Stock Valuation; Authorized / Registered Capital; Issued, Subscribed and Paid-up Capital; Classification of Preferred Stock; Concept, and Process of IPO w.r.t. Pakistan

Efficient Market Hypothesis, and Market Efficiency; Basic Model for Common Stock Valuation; Major Types of Valuation Models for Common Stock including Zero-growth Model, Constant-growth Model, Variable-growth Model

Other Approached of Valuation for Common Stock including Book Value, Liquidation Value, Price/Earnings Multiples

4. CAPITAL INVESTMENT, ITS VALUATION, AND INVESTMENT DECISION MAKING

Capital: Sources of Capital and Cost of Capital, and Determination of the Cost of Capital, Optimal Mix of Capital Sources

Meanings, and Nature of Investment (Relevant Assets), Meanings of Capital Budgeting, Fundamentals of Capital Budgeting including Motives for capital expenditure, Process of capital budgeting

Basic Terminology covering Independent Projects versus Mutually Exclusive Projects, Unlimited Funds versus Capital Rating, Accept-Reject versus Capital Rationing, Accept-Reject versus Ranking Approaches

Overview of Capital Budgeting Techniques: (1) Payback Period 1st Technique, Decision Criteria, Pros and Cons of Payback Analysis; (2) Net Present Value (NPV) 2nd Technique, NPV and Profitability Index, NPV and Economic Value Added; (3) Internal Rate of Return (IRR) 3rd Technique, Calculating the IRR through Interpolation

Comparing NPV and IRR Techniques: (1) Net Present Value Profiles, and (2) Conflicting Rankings including Reinvestment Assumptions, Timing of the cash flow, Magnitude of the Initial Investment.

5. CAPITAL BUDGETING CASH FLOWS

- **Capital Budgeting Process**: An overview and Understanding
- **Relevant Cash Flows**:
  - Major Cash Flow Components
  - Expansion VS Replacement Decisions
  - Sunk Costs and Opportunity Costs
• Finding the Initial Investment:
  o Installed Cost of New Asset
  o After-tax Proceeds from Sale of Old Assets
  o Change in Net Working Capital
  o Calculating the Initial Investment

• Finding the Operating Cash Flows
  o After-tax Meanings and Use
  o Estimating Project “After Tax Incremental Operating Cash Flows”

• Finding the Terminal Cash Flows
  o Proceeds from Sale of Assets
  o Taxes on Sale of Assets
  o Change in Net Working Capital

• Project Evaluation & Selection: Alternative Methods
  o Project Monitoring: Progress Reviews & Post Completion Audits
  o The Problem of Project Risk
  o Total Project Risk
  o Contribution to Total Firm Risk: Firm Portfolio Approach
  o Managerial Options

| Objectives                     | • Preparation of Financial Statements of Companies in accordance with statutory requirements of Companies Ordinance and International Financial Reporting Standards (IFRS) / International Accounting Standards (IAS) with appropriate notes to a preliminary extent,  
  • Compute working capital ratios for business sectors.  
  • Identify and explain Reasons for Profit Appropriation,  
  • To learn about practical Implication of IAS-16, 18 and 38  
  • Application and selection of accounting techniques and |
procedures to specific circumstances like leases, branches, departmental stores, consignment, joint venture and construction contracts.

- prepare accounts and financial statements of joint venture, partnership, branches & departmental types of businesses,
- Identify and explain reasons why any loss/gain is debited or credited to retained earnings,
- Prepare a statement of changes in Equity

**COURSE OUTLINE**

1. **PREPARATION OF FINAL ACCOUNTS UNDER THE PROVISIONS OF COMPANIES ORDINANCE 1984 AND IFRS/IAS**

   a. Conceptual Framework concerning Presentation Requirements of relevant IFRSs / IASs; 4th & 5th Schedule of Companies Ordinance, 1984 as to contents and presentation of Financial Statements
   b. General Trading and Profit and Loss Account, Profit and Loss Appropriation Account, Concept of ‘Statement of Comprehensive Income’, and Balance Sheet
   c. Statement of Changes in Owners’ Equity (with concept of negative Equity) and Cash Flows Statement (w.r.t. IAS-7)
   d. Certain ancillary concepts including Off Balance Sheet Items, Residual Equity etc.
   e. Treatment of the following Items:

   - i. Issue of Shares
   - ii. Cash Dividends
   - iii. Right Shares and Bonus Issue
   - iv. Reserves
   - v. Govt. Levies (especially Sales Tax)
   - vi. Prior Period Adjustments
   - vii. Excise Duty and Sales Tax
   - viii. Long Term Loans and their current Maturity
   - x. Workers Profit Participation Fund
   - xi. Workers’ Welfare Fund
   - xii. Bank margins and guarantees including Commitments and Guarantees

2. **DEPARTMENTAL ACCOUNTING**

   Departmental Accounting an Introduction, Accounting Systems for maintaining Departmental Accounts, Advantages of Departmental Accounts, Profit and Loss Account, Allocation of Departmental Expenses, Inter-departmental Transfers – Cost or Market Price Basis, Accounting treatment of unsold stock with the departments

3. **BRANCH ACCOUNTING**

   Nature and Operational System of a Branch, Its Comparison with Department, Accounting Systems for Depended Branches, Independent
Branches and Head Office Reconciliation, Inter-branch Transactions, Issues with Wholesale Branch

4. ACCOUNTING FOR JOINT VENTURE

Nature of Joint Venture Enterprises, Accounting Treatment – When separate books of accounts are maintained, and When separate books are not maintained, Memorandum Recording Methods, Profit or Loss Computation

5. PARTNERSHIP ACCOUNTING
   (Selected Topics – Formation, Admission & Goodwill Calculation)

Features and Formation of Partnership, Distribution of Profits among Partners, Changes in Partners’ Sharing Ratios, Partners’ Capitals and their Kinds, Accounting Treatment for Issues on Admission of a Partner, Calculation of Goodwill under Partnership

6. PROPERTY, PLANT AND EQUIPMENT w.r.t. IAS-16

Definitions provided in IAS-16; Methods of Depreciation and Change of Method, and its implications; Revision of Life of an Asset, and its implications; Accounting for Disposal and Exchange of an Asset, Disclosure Requirements.

7. REVENUE RECOGNITION w.r.t. IAS-18

Scope, and Definitions; Measurement of Revenue; Identification of the Transaction; Sale of Goods; Rendering of Services; Interest Royalties and Dividends.

8. INTANGIBLE ASSETS w.r.t. IAS-38

Definitions and Concepts; Recognition and Measurement; Internally Generated Intangible Assets; Research Phase and Development Phase; Practical Implications of the IAS through practice of some basic Illustrations.

**Objectives**

This course has been designed to:
- Enable the students understand and comprehend the real life issues of the Economy of Pakistan
- Enable the students to have an insight into the policies of the Government of Pakistan, and the State Bank of Pakistan along with Ministry of Finance
- Enable the students go through the data available in the latest Economic Survey of Pakistan and the federal government’s Budget documents, and to relate it to the economic and social indicators of industrially Developed Economies and the SAARC countries

**COURSE OUTLINE**

1. **ECONOMIC DEVELOPMENT**

   Meaning of Economic Growth and Development, and the Difference; Significance of Development Economics; Factors of Economic Development (General); Factors of Economic Development w.r.t to Pakistan; Various Measures / Strategies to enhance Economic Growth;

2. **AGRICULTURAL ISSUES:**

   Food security; Productivity of Land; Non-Farm employment Opportunities; Forest and Water Management; Price Support Policy; Agricultural Inputs and their impact on Cost of Production

3. **INDUSTRIAL ISSUES:**

   Large Scale; SME and Cottage Industry; Export Industry vs Import Substitution; Public-Private partnership; Industrial Policy

4. **OTHER VITAL CHALENGES / ISSUES OF THE ECONOMY:**

   a) Minerals and Mining;
   b) Energy Resources;
   c) Transport: Issues - Air, Railways; Roads; Sea; Farms to Market Roads; Communication;
d) Education and Skill Development: Issues; Basic Education; Vocational and Technical; Higher Education;
e) Health: Issues in Health Sector; Environmental pollution and Human Health; Housing: Issues and Remedies
f) Poverty: Definitions; measurement and alleviation strategies; HDI (Human Development Index)
g) Energy Crisis in Pakistan: Current Scenario; Energy as a Backbone of an Economy (Real Market); Causes of Energy Fiasco (Historical and Political Perspective); Measures to Improve

5. FOREIGN TRADE:
Foreign Trade and Balance of payments: Exports; Imports; Direction of Trade; Classification of Imports and Exports; Terms of trade; Rectification of BOP; Bilateral and Multi-lateral Trade

6. MAJOR MACRO ECONOMIC ISSUES AND POLICIES:
a) Federal Budget and Fiscal Policy
b) Public Debt (External) and Debt Management Strategies of Pakistan
c) Monetary Policy and Inflation

7. OTHER CONTEMPORARY ISSUES OF PAK ECONOMY
a) Terrorism, and Terrorism Financing,
b) Money Laundering
c) Brain Drain
d) Trade Policies
e) Services Industry
f) Higher Education
g) Energy Crises
h) Governance and Accountability etc.

8. INTERNATIONAL SCENARIO:
a) WTO and Pakistan
b) SAFTA and Regional Cooperation
c) Role of Direct Foreign Investment in Economic Growth of Pakistan
d) International Financial and Economic System and its Implications for Pakistan

Recommended Books:
2. Pakistan Golf and Economist (The Economist)
3. Daily Business Recorder
4. Daily The Dawn Editorial and Business Sections
5. Federal Bureau of Statistics (Statistical Survey)

| Objectives | This course is intended  
- To equip the student with latest Literature and Techniques of Psychology  
- To introduce the Basic Psychological Aspects / Dimensions to the students  
- To evaluate New Claims about Psychology by knowing Psychological Facts and Standards for Scientific Evidence  
- To Apply theory to application, demonstrating an understanding of the theoretical knowledge base of | | | |
organizational behaviour
• To Analyze how individual and group behaviours act as building blocks to organizational behaviour
• To Research and analyze aspects of organizational behaviour
• To Analyze team behaviour and its effect on productivity
• To Communicate and interact with team members

COURSE OUTLINE

1. PSYCHOLOGISTS AT WORK:
   Meanings, Use/Scope of Psychology; Subfields of Psychology; Working at Psychology; Exploring Diversity; Becoming an Informed Consumer of Psychology

2. NEURONS: THE BASIC ELEMENTS OF BEHAVIOUR:
   The Structure of the Neuron; How Neurons Fire; Where Neurons Meet: Bridging the Gap; Neurotransmitters: Multitalented Chemical Couriers

3. THE NERVOUS SYSTEM
   Central and Peripheral Nervous Systems; The Evolutionary; Foundations of the Nervous System; Behavioural Genetics

4. THE BRAIN:
   Studying the Brain’s Structure and Functions: Spying on the Brain

5. SENSING THE WORLD AROUND US:
   Illuminating the Structure of the Eye; Colour Vision and Colour Blindness

6. HEARING AND THE OTHER SENSES:
   Sensing Sound; Applying Psychology in the 21st Century; Smell and Taste; The Skin Senses

7. PERCEPTUAL ORGANIZATION :
   The Gestalt Laws of Organization; Feature Analysis; Top-Down and Bottom-Up Processing; Perceptual Constancy; Depth and Motion Perception, perceptual illusions and subliminal perception
8. STATES OF CONSCIOUSNESS:

Sleep and Dreams: The Stages of Sleep; The Function and Meaning of Dreaming; Sleep Disturbances; Circadian Rhythms; Daydreams; Becoming an Informed Consumer of Psychology; Hypnosis and Meditation; Drug Use: The Highs and Lows of Consciousness

9. LEARNING:

Classical Conditioning; Operant Conditioning; Cognitive-Social Approaches to Learning

10. MEMORY:

Encoding, Storage, and Retrieval of Memory; Recalling Long-Term Memories; Forgetting: When Memory Fails

11. COGNITION AND LANGUAGE:

Thinking and Reasoning; Problem Solving; Language

12. INTELLIGENCE:

What Is Intelligence? And Variations in Intellectual Ability

13. MOTIVATION AND EMOTION:

Explaining Motivation; Human Needs and Motivation: Eat, Drink, and Be Daring; Understanding Emotional Experiences; Nonverbal Behaviour and the Expression of Emotions

14. SOCIAL PSYCHOLOGY:

Attitudes and Social Cognition; Social Influence; Prejudice and Discrimination; Positive and Negative Social Behaviour

15. INTRODUCTION TO ORGANIZATIONAL BEHAVIOUR:

Environmental and Organizational Context; Environmental Context including Information Technology & Globalization; Organizational Context: Design, Structure and Culture; Cognitive Process of Organizational Behavior; Perception and Attribution; Personality and Attitudes; Motivational Needs and Processes

16. DYNAMICS OF ORGANIZATIONAL BEHAVIOUR:

Communication; Decision Making; Stress and Conflict; Power and Politics; Building Teams Group Dynamics and Teamwork; Valuing Diversity-Individual Differences;

Managing and Leading for Higher Performance; Managing Performance through Job Design and Goal Setting; Behavioral Performance
Management; Effective Leadership Processes; Great Leaders: Styles, Activities and Skills

COURSE OUTLINE

1. INTRODUCTION

   Basics:
   Nature, scope and subject matter of Sociology; Brief historical development of Sociology; Introduction to Qura’nic Sociology; Society and community; Relationship with other social Sciences

   Evolution and Recent Thoughts:
   Social Interaction Processes: The study of social life; Exploring the global village; Sociology as a science; The Sociological imagination; The development of Sociology; Pioneers of Sociology

2. SOCIAL GROUPS AND INSTITUTIONS

   Groups:
   Definition and functions; Types of social groups

   Institutions:
   Definition; Structure and function of social institutions; Inter-relationships among various social institutions
3. CULTURE, SOCIALIZATION, SOCIAL CONTROL AND STRATIFICATION

Culture and related concepts
Meaning/Definition and aspects of culture; Elements of culture; Organization of culture; Other concepts, cultural relativism, sub cultures, ethnocentrism, cultural lag

Socialization and personality
Role and status; Socialization; Culture and personality

Deviance and social control
Definition and types of deviance; Juvenile delinquency; Formal and Informal method of social control

Social stratification
Approach to study social stratification; Caste class and race as basics of social stratification

4. SOCIAL MOVEMENT, SOCIAL & CULTURAL CHANGE

Concept of social movement
Definition; Theories of social movement; Social and cultural change; Collective behavior; Characteristics; Causes; Types; Social movements; Mob and crowd behavior

Social and cultural change
Definition of social change; Dynamics of social change; Impact of globalization on society and culture; Resistance to Change

</table>

**Objectives**

- This course introduces students to information and communication technology in a business environment and builds a foundation of digital literacy skills necessary for success in a technologically driven society.
- Students will develop word processing, spreadsheet, database, desktop publishing, presentation software, and also, website design skills to some extent.
- Throughout the course, there is an emphasis on digital literacy, effective electronic research and communication skills, and current issues related to the impact of information and communication technology.

**COURSE OUTLINE**

1. **INFORMATION TECHNOLOGY GROUNDWORK**

   In this unit students will create an electronic information technology reference manual of terms, and explain the key infrastructures related to information technology. Through investigation, students will develop an understanding of key information technology infrastructures, explore legal and ethical issues related to technology, understand the importance of ergonomics, navigate through the desktop, and have their data entry skills assessed.

   The Challenges of Managing Information Systems and Technology

   Understand how IT can add value; Determine the many components of IT management; Realization of the many stakeholders responsible to create IT success.

   Information Technology Planning Process. Interview an organization for the purpose of documenting their I.T. planning process who what, where, why, when, how? If possible determine links to the organization’s strategic plan.

2. **APPLICATION SOFTWARE IN BUSINESS**

   In this unit students will enhance and/or develop their basic software application skills using specific application software, investigate web-page design software and Internet search engines, and assess their data entry skills on an ongoing basis. Each student will track his/her development using Software Competencies Checklists. Document production will focus
on the creation of correctly-formatted business documents in a culminating project that will require students to plan, make decisions, and create documents integrating the software applications. Documents created will be stored in files and folders that are logical and useful.

3. ELECTRONIC COMMUNICATION
In this unit students will complete readiness and remedial exercises and use electronic tools to enhance and/or develop their communication skills, develop an understanding of what e-mail is and how it works, investigate a variety of topics related to electronic communication, and apply their new, electronic-communication skills to create an electronic presentation.

4. GATHERING ELECTRONIC INFORMATION
In this unit students will enhance and/or develop their ability to gather information from a variety of electronic sources; develop evaluation criteria to evaluate the electronic information gathered with respect to validity, bias, usefulness, confidentiality, and the degree to which it is up to date; develop an understanding of Internet connections; investigate dangers that are associated with transmission of information; apply research and critical thinking skills in researching the business and communication etiquette of a designated culture; and apply their research findings to a variety of formats to be shared with classmates.

5. CHIEF INFORMATION OFFICER (CIO) AND THE INFORMATION SERVICES RESOURCE
CIO Reporting Model and CIO, IT staffing, organizing IT and risk management Access

Determine key skills, traits, levels of experience enabling the CIO to be successful. Understand the support area skills of the IT department, staff retention and overall management requirements, and how the IT organization structure is designed based on the type of industry, business use of IT, and strategy deployed. Critical assessment of sourcing IT support and technology and related decision making and outsourcing management.

General Overview of Management Information System; ERP Systems, Oracle and SAP, and their Use and Application.

Recommended Books:
1. Information Technology for Module-D of Chartered Accountancy, PBP Publications.

| **Objectives** | This course will enable students:  
- Understand Cost Concepts, Objectives, Scope, Cost Flow and Classification, Cost Behavior and other associated Concepts  
- Understand and explain Material, Labor, Factory Overhead Costing and Control,  
- Accounting for Joint- and By-Products  
- Prepare Job-order Cost Sheet and Cost of Production Report | | |

**COURSE OUTLINE**

1. **CONCEPTS, AND SCOPE OF COST ACCOUNTING:**
   
   Definition and concept of cost, Cost object, Cost elements, Sources and uses of cost data, Cost accounting v / s financial accounting, Costing department and its relationship with other departments, Role of cost accounting in a management information system, Uses of cost data.

2. **COST CLASSIFICATION, AND FLOWS:**
   

3. **MATERIAL COSTING AND CONTROL:**
   

4. **LABOUR COSTING AND CONTROL:**
   
   Objectives of payroll accounting. Calculations and recording of payroll, payroll taxes and deductions. Direct and Indirect Labour, Productivity and efficiency, Remuneration methods, Straight piece rate and differential piece rate, Incentive wage plan, Group bonus, Time sheet and job cards, Overtime and idle time; Labour turnover rate.
5. FACTORY OVERHEAD COSTING AND CONTROL:

Classification and collection of overhead, Predetermined overhead applied rate, Factory overhead cost: planned, applied and actual, Over and under applied factory overhead' and its disposal, Departmentalization of overhead, Allocation, apportionment and reapportionment of overhead costs, Repeated Distribution and Algebraic Method for reciprocal, service department costs.

6. TYPES OF COSTING SYSTEMS:

Recommended Book:
1. Cost Accounting by F. Usry, H. Hammer & Adolph Matz
2. Cost and Management Accounting Latest Edition by Collin Drury

Reference Books:
1. Costing Latest Edition by Emile Woolf
2. Cost Accounting by T. Lucy DP Publications, Aldyne Place 142-144 Uxbridge Road, Shepherds Bush Green, London W128AW
3. General Journals/Periodicals: Journal of Management Accounting, ICMAP

Objectives
- This course is designed to serve the needs of Modern Accounting Principles, Procedures and Methods that are applied in preparation and presentation of financial statements, and the proper uses that can be made of financial data.
- This course will have different relationships with the requirements of the various Professional Accountancy Bodies like ICAP, ICMAP, PIPFA and other significant universities in Pakistan.
- This course will enable students learn some advanced Accounting Treatments and Techniques pertaining to Corporate Sector including Banking Corporations and Specialized Ventures/Mechanisms including Construction Contracts and Leases.
COURSE OUTLINE

1. IASB FRAMEWORK, IFRS / IAS AND THEIR APPLICATION IN PAKISTAN

The IASB’s framework and objectives of financial statements; International financial reporting standards (IFRS 1 First-Time Adoption on International Financial Reporting Standard) and related information; Format of Income statement; Reporting Irregular issues; and Special Reporting issues

2. COMPANY FINAL ACCOUNTS, AND SPECIAL TREATMENTS

Completion of accounting cycle – Process; Year-end Adjustments, and their Treatment in the Financial Statements; Closing Entries; Components of Financial Statements; Preparation and Presentation of Income Statement and Balance Sheet; 4th Schedule (Listed Companies) of Companies Ordinance 1984; Relevant Provisions pertaining to Accounting, Reporting and Audit; 5th Schedule (Non-listed Companies).

3. CASH FLOW STATEMENT, AND STATEMENT OF CHANGES IN EQUITY, AND NOTES

Comprehensive Analysis of IAS – 7; Major Segments / Components of a Cash Flow Statement; Preparation and Presentation of a Cash Flow Statement as per IAS using both Direct and Indirect Method; Rigorous Analysis of a Cash Flow Statement from the Financial Statements of a Listed Company; Meanings and Use of a Statement of Changes in Equity; Major Segments / Components of the Statement of Changes in Equity; Rigorous Analysis of the Statement of Changes in Equity from the Financial Statements of a Listed Company; Nature, Meaning and Use of Notes to the Financial Statements

4. ANALYSIS OF FINANCIAL STATEMENTS (RATIO ANALYSIS)

- Profitability
- Solvency / Debt
- Market
- Liquidity
- Activity

Calculating and Interpreting Ratios on the Data extracted from the Financial Statements of a Listed Company
5. PARTNERSHIP ACCOUNTING
(Selected Topics-Capital, Retirement, Death & Dissolution)

Briefing about previous Topics covered in Advanced Accounting-I; Fixed and Fluctuating Capital; Retirement of a Partner, and its Accounting; Death of a Partner, and its Accounting; Dissolution of Partnership, and its Accounting

6. BASIC UNDERSTANDING ABOUT FINANCIAL STATEMENTS
(REPORTING) OF A BANKING COMPANY

7. LONG TERM LIABILITIES

Nature, and Definition/meaning of Long-term Liabilities; Nature and Forms/Classes of Long-term Liabilities; Description of Formal Procedure associated with the Issuance of Long-term Debts; Issue of Bonds at Par, Discount and Premium, and Associated Accounting; Amortization of Discount and Premium; Preparation of Loan Amortization Schedule; Journal Entries for Bonds, Long-term Notes and Bonds Payable; Determining Periodic Interest Expense, and its Reporting in Income Statement; Presentation (Reporting) in Financial Statements

8. CONSTRUCTION CONTRACTS (w.r.t. IAS-11)

Scope, and Definitions; Contract Revenue and Contract Costs; Recognition of Contract Revenue and Costs; Recognition of Expected Losses; Changes in Estimates; and Disclosure Requirements; Practical/numerical Illustrations to understand all the necessary provisions associated.

9. LEASES (w.r.t. IAS-17)

Scope, and Definitions; Classification of Leases; Accounting Treatments in the Books of Lessor and Lessee; Disclosure Requirement; Practical/numerical Illustrations to understand all the necessary provisions associated.

Recommended Books:
3. An Insight into IFRS by Mohyuddin Tahir Latest Edition

Reference Books:
1. Gateway to IFRS Latest Edition
2. Past Papers by ICAP, ICMAP and PIPFA covering above-cited Topics.

<th>PRINCIPLES OF MANAGEMENT</th>
<th>Credit Hours</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-Requisite</td>
<td>NONE</td>
<td>Semester</td>
<td>IV</td>
</tr>
</tbody>
</table>

Objectives
- Expose students to the theories of management, organizational theory, and the practice of management in contemporary organizations from a conceptual, analytical, and pragmatic perspective.
- Allow students to develop their own framework for analyzing and understanding management as well as exploring and developing their own personal philosophy of management.
- Communicate effectively, develop people, solve problems and making decisions, organize themselves and also would be able to work in team.

COURSE OUTLINE

1. INTRODUCTION TO MANAGEMENT: CONCEPTS AND THEORIES / EVOLUTION

Basic Concepts and Definitions: Efficiency, Effectiveness, Skills, Roles etc.; Foundation of Management Thinking and Evolution: Various Schools of Thought

2. ENVIRONMENTAL SCANNING AND CONSIDERATIONS

Environment, National Culture and Management Practices

3. MANAGEMENT FUNCTIONS: PLANNING, AND ORGANIZING

Planning and Planning Tools/Techniques; Strategic Management Process; The Escalation of Commitment: Step Toward an Organizational
theory; Decision Making; Organizational Structure, and Culture; Human Resource Management; Change Management

4. MANAGEMENT FUNCTIONS: LEADING AND CONTROLLING

Motivation: Concept, Use and associated Theories; Leadership & Leader’s styles: Concept, Use and associated Theories; Team and Teamwork Management; Management Skills and Competencies; Managing Organizational Conflict, Politics and Negotiation; Controlling – Meaning, Components/Process and Classification.

5. CONTEMPORARY MANAGEMENT FUNCTIONS / ISSUES / CHALLENGES

Communicating effectively; Technology, The market, Competition and the External environment; Internationalization and Globalization; Entrepreneurship; Stress Management; Professional Ethics and Social Responsibility including CSR; Corporate Governance and Due Diligence; New Management Paradigms

Role of Accountants in Management Process especially in Decision-making;

Recommended Books:
3. Introduction to Management by John R. Schermerhorn and John Wiley & Sons, Inc., UK
4. Accountants in Business F1 Paper of ACCA.

Reference Books:
Course | INFERENTIAL STATISTICS | Credit Hours | 3
-- | -- | -- | --
Pre-Requisite | NONE | Semester | IV

Objectives
This course will enable students:
- Understand the terminology related to Inferential Statistics, and to understand the role of sampling theory in estimation of population parameters and testing of hypotheses concerning parameters.
- Provide with the background in different Estimation Methods of population Parameters on the basis of a sample.
- Develop an understanding about the set of rules that lead to a decision culminating in the acceptance or rejection of some statement or hypothesis about the population.
- Provide with the necessary skills and competencies in using computer statistical package to assist in performing different inferential procedures required in a statistical analysis through practical application.

COURSE OUTLINE

1. REVIEW OF SAMPLING THEORY, SAMPLING DISTRIBUTIONS AND DATA DESCRIPTIONS:

   Introduction to Sampling Theory; Types of Sampling; Random Sampling; Some Important Statistics; Data Displays and Graphical Methods; Sampling Error; Sampling Distribution of Sample Means and Variance; Properties of Sampling Distribution of Sample Means; Uses of Central Limit Theorem; Uses of the Sampling Distribution of the Sample Mean; Sampling Distribution of Sample Proportion; Properties and Application; Software commands

2. ONE AND TWO SAMPLE ESTIMATION PROBLEMS

   Introduction to Statistical Inference; Branches of Statistical Inference (Estimation and Testing of Hypothesis); Need and Significance of Estimation and Type of Estimation (Point and Interval Estimation); Confidence Interval Estimation for single population Mean; Confidence Interval estimation for two population Means; Standard Error of a Point Estimate; Prediction Interval; Tolerance Limits; Interval Estimation for single population Proportion; Interval estimation for two population Proportions; Finite Population Correction Factor; Deciding the Sample Size; Software Commands.
3. TESTING OF HYPOTHESIS

Introduction; Various types of Statistical Hypotheses; Type-I Error, Type-II Error; Probability of Type-I Error; One Tailed and Two Tailed Tests of Significance; Level of Significance and Concept of P-value; General Procedure for Testing Hypothesis

One-Sample Tests of Significance
Assumptions; Tests of Significance for Population Mean, Proportion and Variance; Testing Statistical Hypotheses; One Tailed and two tailed Tests of significances; The use of P-Values for Decision Making in Testing Hypotheses; Single Sample: Tests Concerning a single Mean (Variance Known); Relationship to Confidence Interval Estimation; Single Sample: Tests on a single Mean (Variance Unknown); Choice of Sample Size for Testing Means; One Sample: Test on a Single Proportion; One Sample Test concerning Variances; Goodness-of-Fit Test; Test for Independence (Categorical Data); Software Commands

Two-Sample Tests of Significance
Assumptions; Statistical Hypotheses; Testing a Statistical Hypotheses; Two Tailed Tests; The use of P-Values for Decision Making in Testing Hypotheses; Two Samples: Test on two Means; Relationship to Confidence Interval Estimation; Choice of Sample Size for Testing Means; Tests of Significance for Two Population Means under various assumptions; Tests of Significance for Two Population Proportions under various assumptions; Tests of Significance for Two Population Variances; Graphical Methods for Comparing Means; Two Samples Test for population proportions; Two sample Test Concerning Variances; Goodness-of-Fit Test; Test for Independence (Categorical Data); Test for several Proportions; Software Commands

4. CHI-SQUARE TESTS:

Tests for Association of Attributes; Chi-Square Procedure; Tests for Goodness of Fit (Uniform, Binomial, Poisson, Normal Distributions); Chi-Square Independence Tests

5. ANALYSIS OF VARIANCE:

Introduction; Basic Concept as Testing Equality of More Than Two Means; One-Way Analysis of Variance; Two-Way Analysis of Variance; ANOVA Assumptions - One way ANOVA and Two way ANOVA; Inference about Pairs of treatment means; Software Commands

6. COMPUTER COMPETENCY:

To achieve the practical proficiency, the computer package MINITAB and in some way the EXCEL will provide the computational assistance.
More importantly, a general overview about SPSS, or any other latest Software will be provided to students

**Recommended Books:**
4. SPSS Software and other Latest Software

<th>BUSINESS RESEARCH METHODS</th>
<th>Credit Hours</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-Requisite</td>
<td>NONE</td>
<td>Semester</td>
<td>V</td>
</tr>
</tbody>
</table>

**Objectives**

- Meet the challenge of the fast pace decision making environment;
- Acquaint students with Latest Research Methods and Techniques so as to enable them do the same in order to add value to the existing literature
- Provide the knowledge and skills a manager needs to solve the problems.

**COURSE OUTLINE**

1. **INTRODUCTION TO, AND ROLE OF BUSINESS RESEARCH:**

   Basic research and applied research; Managerial value of research; Types of business research; Decision alternatives in research process; Influences of uncertainty on type of research; Types of business research;
Decision alternatives in research process; Influences of uncertainty on type of research; Scientific investigation; Hallmarks of scientific investigation; Obstacles in conducting scientific research

2. THEORY BUILDING:

Concepts and nature of proposition; Practical value of theory; Deduction and Induction

3. THE RESEARCH PROCESS:

Problem discovery and definition; Planning research design; Sampling; Data collection; Data processing and analysis; Conclusion and report presentation; Ethical issues in research

4. FORMULATING AND CLARIFYING THE RESEARCH TOPIC:

Attributes of good research topic; Importance of problem definition; Process of problem definition; Process of problem definition

5. UNDERTAKING RESEARCH:

The Research Proposal
Meanings
Components and Classification

The Research Strategy
Deciding the research approach and choosing a research strategy; Need for a clearer research strategy; Multi-method approaches; Preliminary data collection; Literature review; Planning the literature search; Obtaining and evaluating the literature

Exploratory research and qualitative analysis
Why conduct exploratory research; Categories of exploratory research
Focus group interviews; Projective techniques

Primary Data
Research method for collecting Primary Data; Survey research; Errors in survey research; Classifying survey research methods; Basic methods for communication with respondents; Observation methods

Experimental research; Basic issues; Internal and external validity; Types of experimental design and internal validity; Ethical issues in experimental design; Measurement of variables; Operational definitions and scales; Measurement: Scaling, reliability, and validity
Secondary data
Objective of secondary data research design; Classification of secondary data; Determining the research design; Overview of research design; Defining research question and hypotheses; Defining terms and variables; Identifying limitations and delimitations

Data Collection Methods
Questionnaire design; Overview of questionnaire designs; Sampling design and sampling procedures; Determining the sample size; Population distribution, sample distribution and sampling distribution; Fieldwork; Principles of good interviewing; Analyzing qualitative data; Overview of qualitative data analysis; Analyzing qualitative data; Editing and coding data

Research Report
Integral parts of a Research Report; Discussion on Research Projects; Drafting a Mini Research Report

6. RESEARCH AND ETHICS:
Ethical Issues and their Dimensions in Research; Plagiarism and like-wise Activities and the Legal Consequences

7. THE USE OF SPSS AND E-views
   a. Data Presentation in SPSS, Distributional Characteristics of data in SPSS

Recommended Books:
2. Collins Jill & Hussey Roger, Business research, Latest Edition
4. Business Research Methods by Cooper and Schindler Latest

</table>

**Objectives**

This course will:
- Enable the students learn to implement the Economic and Quantitative Techniques in the world of Business and Finance
- Enable them to make optimal decisions in real life scenario
- Enable them to collect, analysis and decipher data in real life situations

**COURSE OUTLINE**

1. **THE NATURE AND SCOPE OF MANAGERIAL ECONOMICS**

   The Scope of Managerial Economics, the Theory of the Firm, the Nature and Function of Profits, Business Ethics, the International Framework of Managerial Economics, Managerial Economics and the Internet.

2. **OPTIMIZATION TECHNIQUES AND NEW MANAGEMENT TOOLS**

   Methods of Expressing Economics Relationships, Total, Average, and Marginal Relationships, Optimization Analysis, Differential Calculus; The Derivative and Rules of Differentiation, Optimization with Calculus, Multivariate Optimization, Constrained Optimization and unconstrained Optimization, New management Tools for Optimization

3. **DEMAND THEORY**

   The demand for a commodity, Price Elasticity of Demand, Income Elasticity of Demand, Cross- Price Elasticity of Demand, Using Elasticity in Managerial Decision Making.

4. **DEMAND ESTIMATION**

   The Identification Problem, Marketing Research Approaches to Demand Introduction to Regression Analysis, Simple Regression Analysis Multiple Regression Analysis, Problems in Regression Analysis, Demand Estimation by Regression Analysis.

5. **DEMAND FORECASTING**

   Qualitative Forecasts, Time-Series Analysis Smoothing Techniques Barometric Methods, Economic Models
6. PRODUCTION AND COST ANALYSIS

Production Theory and Estimation, The Production Function with One Variable, Optimal Use of the Variable Input, The Production function with Two Variable, Optimal Combination of Inputs

7. COST THEORY AND ESTIMATION

The Nature of Costs, Short-Run cost Functions, Long-Run Cost Curves, opportunity Costs. Learning Curves Cost-Volume-Profit Analysis and Operating.

8. LINEAR PROGRAMMING

Meaning Assumptions, and Applications of Linear Programming, Some Basic Linear Programming Concepts, and Procedure used in Formulating and Solving Linear Programming: Profit Maximization, and Cost Minimization techniques in linear programming

9. RISK ANALYSIS

10. STRATEGIC MARKET DECISIONS AND GAME THEORY

Recommended Books:
1. Michael Baye, Managerial Economics Latest edition

</table>

**Objectives**

This course is intended to:

- Equip the students with the latest knowledge of finance helping them to make rational financial decisions and thereby to maximize the wealth of the owners.
- Develop understanding of the students in making decisions relating to special situations such as merger, acquisition etc.
- Equip the students with latest tools and techniques in financial decision-making.

**COURSE OUTLINE**

1. **RISK AND RETURN (REQUIRED RATE)**

   Risk and Return Fundamentals: Definition, and Meanings; Basic Model; Risk Preference, Risk Preferences / Behaviors

   Risk of a Single Asset: (1) Risk Assessment including Scenario Analysis and Probability Distribution and (2) Risk Measurement including Standard Deviation and Coefficient of Variation

   Risk of a Portfolio: Portfolio Return and Standard Deviation, Correlation, Diversification

   The Capital Asset Pricing Model (CAPM): (1) Types of risk and (2) The CAPM Model covering Beta Coefficient, The Equation, The Graph, The security Market Line (SML) and Shifts in the security Market Line

2. **SHORT-TERM FINANCING DECISIONS (Current Assets and Current Liabilities)**

   - Current Asset Investment Policies
   - Working Capital Management
     - Working Capital Terminologies: Gross VS Net
     - Trade-off between Profitability and Risk
   - Cash Operating / Conversion Cycle
     - Calculating Cash Conversion Cycle
     - Funding Requirement of the Cash Conversion Cycle
- Cash Management Alternative Strategies
- Cash Budget

- **Management of Marketable Securities**

- **Inventory Management**
  - Inventory Levels and Costs
  - Common Techniques for managing Inventory

- **Receivables Management**
  - Credit Selection and Standards
  - Credit Terms and Policy
  - Credit Monitoring

- **Management of Receipts and Disbursements**
  - Float
  - Speeding-up Receipts and Slowing-down Payments
  - Cash Concentration
  - Zero-balance Accounts

- **Generic Current Assets’ Management**
  - Financing Current Assets
  - Alternative Current Asset Financing Policies
  - Advantages and disadvantages of Short Term Financing

- **Management of Current Liabilities**
  - Sources of Short Term Financing
  - Spontaneous Liabilities
    - Accounts Payable Management
    - Accruals
  - Unsecured Sources of Short Term Financing
    - Bank Loans
    - Commercial Papers
  - Secured Sources of Short Term Financing
    - Accounts Receivables as Collaterals
    - Inventory as Collateral

4. **LEVERAGE, AND CAPITAL STRUCTURE**

- **Leverage:**
  - Meanings and Use of Leverage
  - Breakeven Analysis
  - Operating Leverage
  - Financing Leverage

- **Capital Structure:**
  - Types/Dimensions of Capital
  - External Assessment of Capital Structure
5. PAYOUT POLICY

- Basics of Payout Policy
  - Elements of Payout Policy
  - Trends in Earnings and Dividends
  - Trends in Dividends and Repurchase
  - Dividends versus Capital Gains
  - Dividend Policy Issues
  - Dividend Stability
  - Establishing the Dividend Policy in Practice
  - Dividend Reinvestment Plans
  - Factors affecting Dividend Policy

- Mechanics of Payout Policy
  - Cash Dividend Payment Process in Pakistan (Legal)
  - Dividend Warrants
  - Share Repurchase/Buyback Procedure in Pakistan (Legal)
  - Tax Treatment of Dividends and Repurchase
  - Dividend Reinvestment
  - Effects of Corporate Payouts on Stock price

- Relevance of Payout Policy
  - Residual Theory of Dividends
  - Dividend Irrelevance Theory
  - Other Arguments for Dividend Payout

- Factors affecting Dividend Policy
  - General, Contractual, Growth, Market and Legal etc.

- Classification of Dividend Policies (General and w.r.t. Pakistan)
  - Constant Payout Ratio Policy
  - Regular Dividend Payout Policy
  - Law-Regular-and-Extra Dividend Policy
  - Stock Dividends & Stock Splits
  - Other Forms/Types of Dividend around the world
6. LONG-TERM DEBT MANAGEMENT

- Long-term Debt Considerations
  - Standard Debt Provisions
  - Restrictive Debt Provisions
  - Cost of Long Term Debt
  - Characteristics of Term Loan Agreements
  - Term Lenders

- Corporate Bonds
  - Legal Aspects of Corporate Bonds
  - General Features of a Bond Issue
  - Bond Rating

- Preferred Stock
  - Basic rights of preferred stockholders
  - Features of preferred stock
  - Special types of preferred stock
  - Advantages & disadvantages of preferred stock

- Leases
  - Basic types of leases
  - Leasing agreements
  - The lease contract (IAS 17)
  - Lease VS Purchase Decisions

- Mergers
  - Definition of Mergers
  - Motives for Mergers
  - Types of Mergers
  - Leveraged Buyouts

- Convertible Securities
  - Types of Convertible Securities
  - General Features of Convertible Securities
  - Financing with Convertible Securities

- Options
  - Major Types of Options
  - Calls and Puts
  - Options Markets and Trading

Objectives
This course is intended to:
- Introduce, to students, the key Marketing Ideas and Phenomena, especially the Core Theme of delivering Benefits to Customers.
- Develop students’ Skills in Marketing Analysis and Planning.
- Familiarize students with the Tactics of the Marketing (Product Formulate strategy, advertising and communications [Promotion], and distribution [Place], and Price - 4P’s), and other 3 Ps of services, and enhance problem solving and decision making abilities in these areas.
- Evaluate the attractiveness of different markets.

COURSE OUTLINE

1. INTRODUCTION TO MARKETING
   The Field of Marketing, Basic Concepts of Marketing; Definition and Need for Marketing as a proper Formal Process; Adapting Marketing Strategy to the New Economy; Positioning; Marketing as the Driver in the Digital Economy; Scope of Marketing Today

2. THE MARKETING ENVIRONMENTAL SCANNING
   Marketing-oriented Strategic Planning; Scanning the Marketing Environment – Internal and External; Studying and Analyzing the Needs of all concerned Stakeholders including PESTEL

3. THE MARKETING RESEARCH
   Marketing Research Process, and it’s Use; Marketing information systems; Identifying Marketing Opportunities

4. CONSUMER BEHAVIOR AND MARKET, AND PRODUCER’S BEHAVIOR AND MARKETS
   Consumer Behavior; Consumer Purchase Decision Process: Influences on Consumer Behavior; Social Influences
5. MARKETING SEGMENTATION, TARGETING AND POSITIONING

Identifying Marketing Segments, and Selecting Target Markets; Product Positioning and Differentiating the Marketing Offering

The Product Life Cycle

6. MARKETING MIX FOR GOODS AND SERVICES (7 Ps)

The Marketing Mix

**Product:** Meaning and Classification of product; Development of New Product; Determinants of Product Mix; Product Adoption-Diffusion process; Product Portfolio Classification; Product Deletion Strategy; Packaging.

**Price:** Nature and importance of pricing; Pricing objectives; Factors influencing pricing decision; Developing Price Strategies and Programs; Policy of Credit

**Promotion** Strategy; Role of promotion in business marketing; Developing and implementing the promotional mix; Advertising, sales promotion and public relations; Managing the Sales Force

**Place:** Designing distribution channel; Selecting the type of channel.

**People:** their Behaviors and Attitudes; People as Contributories/Sellers etc. and People as Beneficiaries/Buyers etc., Politics in Marketing (Internal and External)

**Process:** the way/mode services are rendered and received or exchanged; Differentiating among various Methods of rendering services

**Physical Evidence:** Artefacts, Norms, Values, Interior, Dress/Uniform, Structure, Managers’ Appearance etc.

7. MARKETING RETAILING, WHOLESALING AND MARKET LOGISTICS, AND MARKETING PLAN

Managing Retailing, Wholesaling and Market Logistics; Their Types and respective Uses; Managing the Total Marketing Effort

Socially Responsible Marketing Communications, Marketing Plan Development and Analysis

8. MARKETING CHANNELS, SUPPLY CHAIN MANAGEMENT, ADVERTISING AND PUBLIC RELATIONS

**Supply Chain:** Nature, Need and Use
Marketing Channels: Nature, Need, Types and Use/Importance

Advertising: Objectives, Budgets and Strategy.

Public Relations: Role and Impact, and Major Tools

9. PERSONAL SELLING, DIRECT MARKETING, ONLINE MARKETING / E-MARKETING AND SERVICES MARKETING

Personal Selling: Nature, Use/Role and Process; Sales Force Management; Sales Promotion

Direct Marketing: Nature, Use/Role, Growth, Benefits, and various Forms of Direct Marketing;

E-Marketing: Nature, Use/Role, Growth, Benefits, and various Forms of E-Marketing;

Services Marketing: Nature and Scope of Services Marketing including Financial Services and their Marketing

10. CRAFTING STRATEGIES TO ATTAIN COMPETITIVE EDGE

Competitor Analysis: Identification, Assessment and Selection.

11. GLOBAL MARKET PLACE, MARKETING ETHICS AND SOCIAL RESPONSIBILITY

Global Marketing: Considerations, Forms/Approaches, and Global Marketing Mix.

Marketing Ethics and Social Responsibility: Meanings and Need/Rationale for Ethics, Social Criticism, Citizenship in Marketing

Recommended Books:
3. Marketing by Evens and Berman
5. Harvard Business Review w.r.t. Marketing Periodic for Latest Research and Development
6. Cases in Marketing by Prof. Dr. Khawaja Amjad Saeed

The objectives of this course are:

• To sensitize the students to the ethical dimensions of business and to train them to identify ethical dilemmas, analyze them systematically and resolve them based on ethical principles and moral theory.

• To examine the ethical dimensions of business from different perspectives (American/British, European/Japanese, etc) and to introduce tools of ethical analysis of management decisions involving difficult choices between right and right and wrong and wrong.

• To convey the importance and functionality of core values, codes of contact and a culture of ethical behavior as powerful management tools in the workplace and sources of trust and reputation in the marketplace.

• To differentiate between responsive and strategic CSR in terms of shareholder and social value, competitive advantage and sustainability.

• To help participants evaluate the CSR standards of their own companies, identify CSR initiatives and convey competencies for their effective implementation and evaluation.

COURSE OUTLINE

1. INTRODUCTION

Meanings/Definitions of Ethics and Social Responsibility; Basic Principles, Use/Scope etc. of everyday ethical dilemmas
2. WHY BE ETHICAL?

Who cares? Who bothers? The “amoral” majority, Unconscious biases

3. BUSINESS/PROFESSIONAL ETHICS

Definitions, The case for and against ethics in business, Why the law cannot do it? Do Business Ethics make economic sense? The invisible hand and market failures; Distinction between Social Ethics and Professional/Business Ethics

4. COMMON ETHICAL DILEMMAS IN BUSINESS

Human resource issues, Conflict of interest issues, Customer confidence issues, Use of corporate resources, Blowing the whistle

5. ETHICAL THEORIES

Consequentialist or teleological theories (ethical egoism and utilitarianism), Non-consequentialist or deontological theories (normative ethical relativism, golden rule and Kantianism), Virtue ethics and defining moments, Rawlsian Theory of Justice, Stakeholder theory of management

6. ETHICAL DECISION MAKING AND GOVERNANCE

Eight steps to resolving ethical dilemmas and conflicts, Applications to Ethical dilemmas of managers - Ethical dilemmas of organizations

7. CORE VALUES AND CODES OF CONDUCT AS MANAGEMENT AND BRANDING TOOLS

Asymmetry of information and adverse selection, Principal-agent problems and imperfect contracts, the market value of trust and reputation.

8. FUNCTIONAL AREA APPLICATION OF BUSINESS ETHICS

Ethics in finance and accounting, Ethics in marketing and advertising, Ethics in human resource management, Ethics in governance and leadership

9. ETHICS IN THE GLOBAL BUSINESS ENVIRONMENT
10. CORPORATE SOCIAL RESPONSIBILITY

CSR as an ethical responsibility of business towards society, Responsive vs. strategic CSR, Choosing the right CSR initiatives to create shared social and business value, Implementing, evaluating and scaling up CSR to maximize shared value.

11. DOES IT PAY TO BE ETHICAL AND SOCIALLY RESPONSIBLE?

The time horizon: short term vs. long term, Empirical evidence

12. CASES

Enron
Procter & Gamble Co.
Aluminium Co of America
Nestle
Hooker Chemical Company
NYEC
The Wall Street effect
McDonald’s Polysterene Case
Philip Morris
The Markin Mining Company
Texaco
Other old and latest Cases from Pakistan’s Corporate Sector etc.

Recommended Books:
1. Code of Corporate Governance 2013 or Latest, issued by SECP

Reference Books:
- Journal of Business Ethics
- Social Responsibility Journal
- Business Ethics European Review
- Journal of Academic and Business Ethics

**Objectives**

This course is meant to:
- To provide a conceptual and theoretical knowledge of Leadership
- To examine the motives for and meanings of “community development” and the pros and cons of various community development approaches
- To understand various intervention measures in solving social problems in a society
- To use local resources to empower the societies in order to become self-reliant
- Social Action Projects will enable students to harmonize the knowledge and skills gained through these projects with CSR in their professional lives, which is one of the major concerns for future leaders, managers and organizations globally. Start career as Auditor at initial level

**COURSE OUTLINE**

1. **Fundamentals of Leadership and Servant Leadership**
   - What is leadership
   - Leadership Traits
   - Servant Leadership

2. **Foundations of Community Development**
   - The framework for community and economic development
   - Seven theories for seven community developers
   - Bases of community development
   - Process of community development
   - Challenges of the process

3. **Social Capital, Community Building and Community Development Practices**
   - Social capital
   - Community social capacity and how does it influence development
   - Intentional action to increase social capacity
   - Factors that influence the success of community-building efforts
   - Principles and process of practicing community development
   - How does community development practice relate to economic development
   - Professional standards of ethical practices in community development
4. Entrepreneurship as a Community Development Strategy
   - Introduction to Entrepreneurship
   - Understanding an Entrepreneur
   - Opportunity recognition and role of creativity

5. Community development assessment, Community Asset mapping and surveys, Assessing local economy.
   - Community Mapping
   - Surveys Forms
   - The importance of asset mapping.

6. Building Powerful Community Organizations
   - Bringing a group together
   - Scanning the functions of Community Organizations present in the market
   - The idea generation
   - Developing Vision, Mission and Goals
   - Structuring the Organization
   - Defining SOPs

7. Marketing your Organization
   - Marketing a Community Organization
   - Effective role and guidelines for conducting meetings

8. Mobilizing Resources: Raising Money
   - Community development finance
   - Finding sources of money
   - Securing grants for community development projects
   - Preparing grant proposals

9. Measuring Progress
    Community development indicators, Best practices & Benchmarking

Recommended Books:
1. The heart of leadership: A leader people want to follow by Mark Miller, Berret-Kohler Publisher 2013.
2. Leadership and Art of Struggle by Steven Snyder & B. Geage Berret Kohler Publisher 2013.

</table>

Objectives

This course has been formulated to:

- Improve the Reasoning Ability among the students.
- Make students capable to Demarcate Fallacious and Valid Arguments.
- Introduce to students application of Logic in Administrative Sciences.
- Develop Decision Making Ability based on Logical Reasoning, which is a crucial pre-requisite for successful managers.

COURSE OUTLINE

1. INTRODUCTION TO PHILOSOPHY AND LOGIC

Historical Introduction to Logic; Aristotelian Logic; Modern Mathematical/ Symbolic Logical; Recent Developments in Logic; Modal Logic; Fuzzy Logic; Free Logic; Critical Thinking; Critical Thinking and Validity of Thought; Other Basic Logical Concepts

2. PROPOSITION, ARGUMENT, PREMISES, VALIDITY ETC.

Proposition & Sentence; Proposition & its Analysis; What is an argument?; Argument Forms; Argument & Non Argument; Well Crafted Argument; Premises; Deduction & Validity; Induction & Probability; Validity, Truth, Soundness, Strength, Cogency & Reasoning.

3. LANGUAGE, DISCOURSE, PUNCTUATION, NEGATION, IMPLICATION, EQUIVALENCE ETC.

Three Basic Functions of Language; Forms of Discourse; Introduction to Symbolic Logic; Translating Statement and Punctuation; Negation, Conjunction & Disjunction; Conditional Statement & Implication; Material Equivalence & Logical; Equivalence

4. ARGUMENT FORMS, PROPOSITION, INDUCTION ETC.

Argument Forms; Some Common Valid Argument Forms; Some Common Invalid Argument Forms; Categorical Proposition & Classes; Quality, Quantity and Distribution; Paradox, Dilemma & Fallacy; General Schema of Standard Form; Categorical Proposition; Standard Form Categorical Syllogisms; Major, Minor & Middle terms; Mood; Figure; Method of Deduction; Formal Proof of Validity; Proof of Invalidity; Introduction to Quantification Theory; Quantification; Traditional Subject Predicate
Proposition; Nature of Inductive Argument; Science & Induction; Argument by Analogy; Refutation by Analogy; Essay Analysis; Presentation

    Selecting Customer, Sales Invoicing, Apply to Sales, Receipts, Apply to Revenue and Selecting Account
19. **Sales Return**
   Selection of Customer, Selecting Item, Enter the Credit No., Entering Adjusting Quantity and Reason

20. **Receipts Method**

21. **Checking Reports on Different Accounts**
   Reports on chart of Account, Reports on Journal, Reports on Ledger, Reports on Trial Balance, Reports on Income Statement, Reports on Financial Statements, Reports on Inventory, Other Relevant Reports, Print the Report and Convert the Report to Excel

22. **Final Project on Peachtree & Discussion**
   Final Project, Problems in Previous Topics, Making Suggestions on Problems

23. **Overview of Quick Books Software**

**MS Excel Course**

A First Look at Excel
The Advantages of Using Excel, What are Workbooks and Worksheets?, Creating and Opening Workbooks, Entering Data, Further Date Entry Techniques, AutoComplete, Navigating in the Worksheet and Selecting items Within Excel.

A Closer Look at the Excel Screen
Office Button, Quick Access Toolbar and Ribbons

Using AutoFormat
Running AutoFormat from the Format Drop Down Menu, Removing AutoFormat Changes, Setting AutoFormat Options

Inserting and Deleting Cells, Rows and In Columns
Saving Workbooks, Moving Worksheets, Using the Excel Workbook and Exiting Excel

Worksheets, a Further Look
Renaming Worksheets, Deleting and Inserting Worksheets and Grouping and Ungrouping Worksheets

Formatting and Customizing Data
Formatting Options within Excel, Alignment, Data indentation and Rotation – introduced with Excel, To Center items in a Cell/Cells, Using Fonts, Formatting Numbers, Decimal Places, Formatting Columns and Rows, Deleting Cells, Formats, Objects and Worksheets, Adding, Editing and Removing Borders, Using AutoFormat, Copying Data, Copying Data Using Drag and Drop and Copying Columns and Rows
Formulas, Functions and Named Ranges
Formulas, Functions, Using the Sum Function, Other Commonly Used Functions, Using Paste Function, Naming Cells and Ranges and Using Named Ranges with Formulas

Introducing charts
Creating a Chart, Manipulating Charts and Changing the Chart Type

Further Formatting Techniques
Conditional Formatting and Using Colors in Excel

Further Functions
What Are Functions?, Using Paste Function, The IF( ) Function, Data Validation Functions, The HLOOKUP / VLOOKUP Functions, The Date Functions, Time Functions, Financial Function and Text Manipulation Functions

Customizing Charts
Adding Charts, Adding and Removing Data, Changing Data By Dragging and Dropping Columns, Formatting the Chart Area, Chart Formatting – Legends ; Axis; Plot Area Gridlines; Data Series

Macros and Custom Controls
What are Macros? To Record a Macro, Running Macro, Creating a Button in a Worksheet and Assigning a Macro to it, Attaching Macros to Button , Combo Box; List Box, Scroll bar, etc., Drawing, Editing and Formatting Buttons

Database and List Management
What is a Database? Excel Database, Database Terminology, Creating, Editing and Navigating a Database, Sorting an internal Excel Database, What is AutoFilter? Filtering Data, Advanced Filtering, Totaling and Manipulating Filtering Data, Creating Subtotals and Using Data Filtering

The Excel Data Form Customizing Excel
Customizing Excel –Options

Security and Proofing within Excel
Data Validation, Workbook Password Protection, Workbook Protection and Cell Protection

Printing
Page Setup, Margins, Centering Printed Output, Headers and Footers, Sheet Printing Options, Choosing a Printer and Changing Settings, Printing a Worksheet and Printing Multiple Files

| Objectives      | 1. Apply theory to application, demonstrating an understanding of the theoretical knowledge base of organizational behavior  
2. Analyze how individual and group behaviors act as building blocks to organizational behavior  
3. Research and analyze aspects of organizational behavior  
4. Analyze team behavior and its effect on productivity  
5. Communicate and interact with team members |

COURSE OUTLINE

SECTION – I

Introduction, Meaning / Understanding, Role / Functions of Corporate Governance Practices / Culture, The corporate Governance Problem, The conflict between managers and shareholders, Agency Theory: The implications of the conflict, The Principal – Principal Conflict, Transparency and conflicts of interest, Legal approach to corporate governance

SECTION - II

The Impact of Ownership Structure; Ownership and agency theory; Institutional ownership; Inside Ownership; Family Ownership; Pyramidal Ownership and Business Groups; Enlarging the Stakeholder Perspective; Scope of Corporate Governance

Key Issues of CG including Financial Reporting, Directors Remuneration, Company-Stakeholders Relations, Risk Management and Communication

Approaches to CG including Shareholders Approach, Enlightened Shareholders Approach, Integrated/Pluralist Approach and Any other

SECTION - III

Different Board Types: The Good, Bad, and Ugly

Responsibilities of the Board including The Oversight Function, The Directional Functions, The Advisory Function and Any other
Classification of Directors: Executive and Non-executive / Independent Director; Responsibilities of CEO & Senior Management; Resolving the Agency Problem; Board of directors; and Executive Compensation

SECTION - IV

Corporate Governance – Broader Issues

Additional Influences on Corporate Governance
Convergence & divergence – Issues in Corporate Governance

Convergence across corporate governance systems: an interest group theory of financial development

Moral Hazard and performance incentives

Any other Issue / Topic / Case / Dimension

SECTION - V

Ethics and the Role of CG Officer

Reputation and Reputational Risk; Ethics and Code of Ethics; Corporate Social Responsibility; CSR and Reputation Risk; Shades of CSR

Formulating CSR Policy
  a) CSR Policy
  b) Bench Marking in CSR
  c) Sustainability Report

Whistleblowers
  d) WB – Best Practice
  e) Disclosure
  f) Recommended Guide on WB
  g) CG Officer

SECTION - VI

- Real World Corporate Governance Cases – Domestic and International

Recommended Text Books:
1. Companies Ordinance 1984 issued by SECP
2. Code of Corporate Governance, 2013 or Latest, issued by SECP
4. Corporate Governance and Chairmanship a personal view by Adrian Cadbury by Oxford University Press
**PRE-NOTE:**

The respective university may take another (second one) course in the Semester-VIII if it deems that fit to their respective Program.

Given below is an Option with the Course Title “International Business”

**COURSE OUTLINE**

1. **INTRODUCTION**

   Concept and Meaning of international business; The Nature and Importance (why) of doing business internationally; The challenges of International Business; Process of internationalization, a multinational enterprise VS international enterprise; Globalization and forces driving globalization; Modes of operations in international business; major differences between international business and domestic business.
2. BROAD ENVIRONMENTAL ANALYSIS i.e. PESTEL

Concept and Meaning of PESTEL and need to go through it; Political economy and its implications in business; International political and governmental issues; international culture (social, religious, demographic etc.) and its implications in business; international economic environment and its implications in business; international ecology and its implications in business; international legislative environment and agencies, and its implications in business; international technological (both production and information) environment and its implications in business; Ethics, CSR and international Business.

3. THEORIES, MODELS AND INSTITUTIONS: TRADE AND INVESTMENT

International trade theories; Laissez-faire VS Interventionist Approaches to Export; Theories of trade patterns; Free trade theories; Factors-mobility theory; Contemporary theories; Trade agreements, economic integrations, Strategic alliances, Acquisition, Mergers etc.; Hofstede Model.

4. GLOBAL FINANCIAL SYSTEMS (INTERNATIONAL MONETARY SYSTEMS)

International monetary system (Exchange rate determination) – meanings, features and components; Classification of International monetary systems – Bimetallism, gold standard, interwar period, Bretton Woods System/Reforms, flexible system regime and contemporary systems, practices and structures;

5. FOREIGN DIRECT INVESTMENT

Foreign Direct Investment – meanings, factors and reasons; Balance of Payments; Balance of Trade;

6. FOREIGN EXCHANGE MARKET

Foreign Exchange Market – meanings and factors; Major Foreign Exchange Markets; the determinants of Foreign Exchange Rates; the role of IMF; Exchange rate arrangements; business implications of exchange rate changes; Exchange rate in practices and financial crisis:

7. GLOBAL STRATEGY AND STRUCTURE, COUNTRY EVALUATION AND SELECTION

Industry, strategy and firm performance; the firm as value chain; types of strategies; country comparison tools and techniques, and the respective selection; export and import strategies; Global Marketing Strategy; Global Operations Management; Human Resource Management Strategy; Entrepreneurship; The Globalization of Technology; international financial regulatory bodies/institutions.
8. GLOBAL DIVERSIFIED BUSINESS SCENARIOS

Doing Business in Europe; Doing Business in North America; Doing Business in Asia (Particular focus on China, India and Pakistan)

Domestic and International Case Studies w.r.t. any of the above-mentioned perspective should form integral part of the course.

Recommended Text:
Objective of Programme:

The objective of this 18 years MS (Commerce) program is to acquaint the students with recent trends and issues in commerce education and enable them to critically understand and interpret business environment and its prevailing realities. The program is designed to enhance the social sensitivity and sensibility of the students, and also to facilitate them in strengthening their skills vis-à-vis commerce, industry and trade nationally and internationally.

Rationale:

The emerging global scenario necessitates the organizations to look for capable professionals and researchers in commerce, being competent of responding to the changing market needs and requirements, having the capacity to analyze the complex problems and make rational and cost-effective decisions. This is a unique program that emphasizes qualitative and empirical approach to deal with risk and return trade-off problems in both financial and non-financial sectors.

Scheme of Studies:

Semesters: 3 (Minimum) Semesters
Duration: 1.5 years (Minimum) to 2 years
Courses: 8 (24 Credits)
Thesis 6 Credits/ or HEC Policy
Total Credit Hours 30-36 (Maximum time limit is 2.5 years)

Eligibility Criteria:

16 years of education in commerce/business or equivalent with 1st Division or 60% Marks or 2.5 CGPA out of 4 (if it represents 60% or more in case of CGPA).

The candidate must also meet (1) HEC criteria e.g. passing Entry Test GAT (General and/or Subject) with minimum raw score of 50 out of 100, and (2) any other criteria laid down by the respective university/syndicate..

Semester-wise Break-up:

Semester I (4 Courses)
- Two courses from the list of Core Courses 3+3
- Two courses from the list of Elective Courses 3+3
Semester II (4 Courses)
- Two courses from the list of Core Courses 3+3
- Two courses from the list of Elective Courses 3+3

Semester III (Optional)
1. Any Two courses from the list of Elective Courses 3+3
2. Research Thesis / Dissertation or HEC MS Policy/PhD Admission required thesis/Research Project. 3+3 = 6

The above core courses have been suggested after rigorous discussion among the members of the committee keeping, the domains of Accounting & Finance and associated Research, in due consideration exclusively meant for Commerce Education. However, a university may opt to substitute the courses vis-à-vis Accounting and Finance with some other title(s) along with certain respective change(s) with the approval of its respective Board of Studies.

List of Elective Courses

1. Advanced Financial Risk Management
2. Advanced Portfolio Management and Investment Analysis
3. Issues In Corporate Governance
4. Contemporary Issues In Business
5. Corporate Audit & Assurance
6. Global Banking and Capital Markets
7. Corporate Mergers, Acquisitions and Restructuring
8. Management Accounting and Decision Making
9. Global Economic Issues
10. Economic Analysis and Monetary Policy
11. Financial Econometrics
13. Issues in Financial Reporting
14. Issues in Corporate Finance
15. Issues in Corporate Sector (including Banking Sector)
16. Taxation Management
17. Financial Engineering/Modeling
18. Mathematical Modeling
19. Financial Derivatives
20. Manuscripts Writing
21. International Trade and Business Strategies
22. International Financial Management
23. Financial Markets and Institutions
24. Legal and Regulatory Framework for Banks and Financial Institutions
25. Islamic Banking and Finance
26. Financial Economics

The Elective Courses have been suggested in the same manner. However, a university may also consider any other Elective Course and opt the same with the approval of its respective Board of Studies.

Course Guidelines
The Course guidelines of a number of courses have been suggested just for maintaining a specific direction/minimum contents of a specific course of Commerce Education.

1. **Inferential Statistics**
   This course is designed to extend and deepen understanding of statistical approaches to data analysis through an appreciation of the process of statistical reasoning prior to designing appropriate quantitative analysis of data. Attention will be given to discrete probability distributions, including normal approximations, as well as a range of parametric and nonparametric tests. A number of approaches to regression under different conditions will be considered in depth.

2. **Advanced Research Methodology**
   The course consists of questionnaire design, sampling techniques, guides to methods and techniques of collecting data and the use of SPSS for research analysis.

   There are two components of this course: (i) an introduction of research concepts, designs and philosophy of science in relation to business research methods followed by a presentation of comprehensive research for the creation of empirical business knowledge and (ii) preparation of research proposal.

3. **Strategic Financial Management**
   The objective of this course is to study the major decision-making areas of managerial finance and some selected topics in financial theory. The course reviews the theory and empirical evidence related to the investment and financing policies of the firm and attempts to develop decision-making ability in these areas. These may include leasing, mergers and acquisitions, corporate reorganizations, financial
planning and working capital management. Research papers on investment decision making under uncertainty, cost of capital, capital structure, pricing of selected financial instruments and corporate liabilities, and dividend policy will be discussed.

4. Issues in Corporate Governance
This course examines professional ethics for Accounting Professionals from both a philosophical and business perspective. Moral development, ethical reasoning and ethical decision making provides a framework for examining the importance of ethics in the accounting profession. Research papers on professional guidance on ethics in accounting will also be examined. This course also focuses on identifying and resolving ethical dilemmas and understanding current issues facing the accounting profession

5. Advanced Portfolio Management and Investment Analysis
The subject focuses on the concepts of diversified portfolio approaches to investments, the types of pooled investment management products that are available to investors and evaluating portfolio risk & return measures. It demonstrates the existence of preferred or efficient sets of risky portfolios and other results of what is known as modern portfolio theory. It also focuses on the portfolio planning & construction process and certain aspects of behavioral finance.

6. Management Accounting and Decision making
This course will review some of the practices in management accounting, such as performance measurement i.e. economic value added and balanced scorecard and costing methods i.e. activity based costing, target costing and strategic management accounting. The course will further elaborate on central issues such as accountability, control and inter-organizational control. Different theoretical angles will be taken on management accounting such as critical, sociological, old institutional theory, transaction cost theory and industrial network approach. Methodological aspects will also be covered during the course through research papers.

7. Advanced Corporate Reporting
Financial accounting concepts, researching financial accounting standards, current pronouncements and application of principles to practical problems will be studied. Emphasis is given to contemporary accounting literature related to current financial reporting problems. The course specifically addresses how financing, investing, and operating decisions affect financial statements. The course also covers how creditors and investors use financial statements to evaluate the
results of managers’ decisions and the effect of alternative accounting methods on the quality of financial reporting. The course emphasizes the effect of internal accounting decisions on external financing and business decision making.

8. Corporate Mergers, Acquisitions and Restructuring
This assorted, case-oriented, transaction-based course addresses the various financial, tax, and accounting issues arising in connection with corporate mergers, acquisitions and restructuring. It presents a detailed introduction to the qualitative and quantitative valuation techniques used in analyzing proposed transactions. Participants are exposed to the vast array of legal, tax, and accounting issues that arise in connection with negotiating, structuring, closing, and reporting these transactions and how these various factors impact corporate value. Tax due diligence and financial statement analysis are also covered. This course also examines the conceptual themes and the technical rules that govern the filing of consolidated tax returns and compares and contrasts the those rules with the generally accepted accounting principles that govern the preparation of consolidated financial statements.

9. Taxation Management
This course is designed to equip students with the special investigative skills, and the technical tools, techniques, and insights required to analyze, interpret, summarize, and present complex financial, tax, accounting, and business related issues in a manner that is both understandable and supported by documentary evidence. This course has been designed to expose students to the various statutory, administrative, and judicial sources of the tax law. Case studies are used throughout the course to assist students in developing and refining their proficiency in identifying issues, locating and interpreting pertinent authority, and effectively and professionally communicating their conclusions.

10. Mathematical Modeling
Mathematical modeling is the translation of a problem in the real world into a well formulated mathematical model. The course offers techniques for model formulation and model analysis in population. The main focus is on modeling dynamical systems using differential equations and difference equations. A short list of some of the topics include: networks and their application to the modeling of populations of interacting individuals, Growth and development. Data envelopment analysis, population models in discrete and in continuous time, Parameter scaling, time-scale separation, optimization, local and global stability analysis.
11. **Global Banking and Capital Markets**

This course is focused on the determinants of competitive dynamics and performance in the global banking industry. It primarily covers commercial and investment banks: the capital markets in which they operate; the related products they offer and the risk-taking activities they undertake—both for themselves and their customers. It addresses organizational strategy, structure and geographic dimensions—covering the US, Europe, and emerging markets; with a special emphasis on the risks of doing business in capital markets/products and the challenges they present to both regulators and market participants. Throughout the course, relevant current events are examined and used to illustrate teaching/discussion points.

12. **Corporate Audit and Assurance**

An in-depth examination of generally accepted auditing standards as well as standards for attestation and other services. Alternative audit models are evaluated for both their practical relevance and their theoretical justification as informed by current research and emerging information technology. The use of computer assisted audit techniques and other computer related technology for obtaining evidence is evaluated in terms of its effectiveness and suitability in diverse audit environments. Methods of evaluating internal controls are considered in light of the risks encountered in new ways of conducting business such as e-commerce. Professional, legal and regulatory environments are examined as they relates to audit risk, audit assessment and audit program planning.

13. **Econometrics**

The objective of this course is to provide a thorough presentation of important econometric concepts to the testing and estimation of economic relationships. It focuses on the application of statistical techniques to economic models in an effort to achieve numerical results and to verify economic theorems. Empirical applications include cross-section, time-series and panel data.

14. **Issues in Financial Reporting**

The aim of this course is to provide the participants with an overview of expectations of stakeholders with reference to information to be included in the Annual Report and to make them familiar with voluntary disclosures in Pakistan. It also highlights areas for improvements in making Corporate Reporting more transparent and to achieve excellence in annual corporate reporting by applying IFRS and other best practices around the world.
15. Contemporary Issues in Business

This course aims to provide an introduction to selected aspects of Asian economic development and the region's interactions with the rest of the world. The course is not descriptive in nature and it is not just a survey of issues. Rather, the focus will be on developing simple analytical tools to understand key trends and macroeconomic, financial and trade policy issues that confront Asia in the world economy. Topics covered include sources of growth in the Newly Industrializing Economies (NIEs) in East Asia, the rise of China and India and their impact of the global trading system, foreign direct investment to Asia, and Currency crisis in Asia, Asian reserve build-up, Asian exchange rate regimes and issues relating to Asian economic regionalism.

16. Global Economic Issues

Global economic resources are scarce and, for the most part, unequally distributed among nations. The contemporary issues in the global economy arise from the dynamics of the economic relations among nation states as each attempt to better position itself in the increasingly interdependent and competitive world. While the economic benefits of specialization and trade have long been recognized and trade among nations has been going on and growing for many hundreds of years, only in the past fifty years or so the general political conditions of the world have become stable enough to allow for steady and worldwide expansion of economic interactions. The trade expansion has occurred despite the Cold War and continuing conflicts in many parts of the world. This course is a study of the dynamics of the global economy and the challenges the world is facing in its way toward a freer and more competitive global economic environment.

Note: Comprehensive course outlines can be developed by concerned faculty members with consultation of the Dean, Faculty/HoDs Commerce with following pattern/sample:

a) Course objectives
b) Course outcomes
c) Course outlines/contents
d) Recommended Reading
e) Recommended text books

Some of the sample course outlines are provided below for consultation and these can be improved by concerned teachers of the University/Faculty.
Course Name: BUSINESS FINANCE

COURSE OBJECTIVES:

This course is designed at imparting knowledge about the fundamental concepts and tools of Finance. It emphasizes the importance of finance skills to individuals and enterprises that deals with the finance function in an organization, the role of the finance manager and the financial environment in which the firm operates. The course emphasis remains on developing the skills for planning, appraising and evaluating the investment, financing and operating decisions.

LEARNING OUTCOMES:

On successful completion of the course, students should be able to understand;

1. The basics of theory of finance and its application in an enterprise,
2. The role and functions of finance and a finance manager,
3. Basic tools and techniques of analysis of financial statements such as time value of money, risk and return for portfolio management for investing decisions,
4. The principles of capital structure,
5. The concept of cost of capital.

4. Earlk. Bown and Martin Starr "Basic Statistics for Business and Economics”.
Course Name: COST AND MANAGEMENT ACCOUNTING

COURSE DESCRIPTION:

This subject deals with how to provide management with such information that help in taking managerial decisions. This course specifically deals with examining Cost Accounting as a tool for providing information for manufacturing, internal reporting, external reporting as well as for managerial decision making.

LEARNING OUTCOMES:

After studying this course student will be able to understand:
1. Cost Accounting as a first step in the Manufacturing process, explain its purpose within an organization,
3. The steps involved in the Accumulation of Total Cost in different departments.
4. Product costing preparation and process costing analysis.
5. Cost of production and cost of goods sold statements for onward reporting to financial statements.

Final Examination

Recommended/Reference Books:

Course Name: Advance Research Methods and Techniques

Course Objectives:

This course imparts the skills of basic research methods and techniques such as identification of research question, development of theoretical framework and model, securing the respondents, making a test investigation, sampling, collecting data, types and errors of collected data, tabulating and analyzing the information, interpreting the findings and stating the conclusion through a series of class projects. Practical experience is offered to the students on how research techniques and procedures are applied to solve the business problems. The course also helps the students in understanding the importance of the business research as a management decision tool and in dealing with various business-related theoretical and applied problems.
LEARNING OUTCOMES:

At the end of this course, the students should be able to
1. Determine an issue into an academic research question,
2. Understand the links between the issues being investigated and the method of investigation,
3. Understand the concepts of qualitative and quantitative research techniques,
4. Understand the principles in the qualitative and the survey research traditions, the merits and limitations of each, and of their independent and supporting roles in business contexts,
5. Use different software for statistical analysis and interpretation of the analyses performed,
6. Learn and apply the skills required to design and conduct research studies using qualitative and/or survey methods.
7. Acquire the ability to interpret research results and establish the substantive meaning and implications of the findings for managerial practice.

**Final Examination**

**Recommended/ Reference Books:**

1. **Title:** International Management: Culture Strategy & Behavior Edition: 7th
   **Author:** Hodgetts, Luthans, Doh **Publisher:** McGraw Hill

2. **International Business and Business Policy Latest Edition**

**Course Name:** Financial Markets and Institutions

**COURSE OBJECTIVES**

The course is offered to orient the students with the understandings of the financial institutions and their working in international capital markets. Further, it introduces the students to the structure and functions of the financial systems and offers a practical perspective on the workings of these financial Institutions. The module first provides an overview of the financial system, focusing on its main components, functions and operations; determination of interest rates and valuation of cash flows. Secondly, it covers financial markets including money markets, bond markets, mortgage markets, stock markets and derivatives markets. Thirdly, it introduces the basic elements financial institutions and their role in corporate finance and in the economy.
LEARNING OUTCOMES:

On completion of the course the students shall be able to demonstrate an understanding of the subject matter and financial environments, not only of the developed world but also of Pakistan. Specifically, the students should be able to:

1. Understand, analyze and critically examine the salient features of financial system and institutional framework.
2. Understand the financial instruments and the cash flow implications of various products.
3. Understand the regulatory framework, the world regulatory architecture shaping up. The strength and weaknesses of some of the regulations.

**Recommended Books:**
1. Madura, Jeff, Financial Markets and Institution, South-Western

**Course Name:** Financial Markets and Institutions

**COURSE OBJECTIVES:**

The course is offered to orient the students with the understandings of the financial institutions and their working in international capital markets. Further, it introduces the students to the structure and functions of the financial systems and offers a practical perspective on the workings of these financial institutions. The module first provides an overview of the financial system, focusing on its main components, functions and operations; determination of interest rates and valuation of cash flows. Secondly, it covers financial markets including money markets, bond markets, mortgage markets, stock markets and derivatives markets. Thirdly, it introduces the basic elements financial institutions and their role in corporate finance and in the economy. The module therefore, is intended to enable students to understand the general functions and main features of important financial markets and institutions, and to be familiar with the structure and dynamics of the financial system in Pakistan and at international level.

**LEARNING OUTCOMES:**

On completion of the course the students shall be able to demonstrate an understanding of the subject matter and financial environments, not only of the developed world but also of Pakistan. Specifically, the students should be able to;

1. Understand, analyze and critically examine the salient features of financial system and institutional framework.
2. Understand the financial instruments and the cash flow implications of various products.
3. Understand the regulatory framework, the world regulatory architecture shaping up. The strength and weaknesses of some of the regulations.

**Recommended Books:**
1. Madura, Jeff, Financial Markets and Institution, South-Western
Course Name:  Corporate Finance

Course Objectives & Outcomes:

The objective of this course is to provide a thorough introduction to the fundamental principles of asset valuation and financing in competitive financial markets. The course examines the important issues in corporate finance from a perspective of financial managers who need to make significant investment and financing decisions. We start with the NPV rule, which leads us to the valuation of debt and equity. We then investigate the efficient market hypothesis and examine the Capital Asset Pricing Model (CAPM) and the portfolio theories in such a market. We also learn to use the NPV rule to justify capital investment decisions. Option pricing will be the last step in our venture into the world of corporate finance. While this course is not designed to teach an abstract mathematical theory of modern financial economics, a basic theoretical understanding of various topics is essential to competent analysis and intellectual discussion. Furthermore, in examining issues in portfolio diversification, knowledge of basic statistics and spreadsheets will be essential and assumed. Prerequisite: Statistics. Co-requisite: Financial Accounting and.

**Recommended Books:**
1. Practice and law of banking in Pakistan by Dr. Asrar H. Siddiqi
2. Commercial Bank Management by Peter S. Rose

**Course Name:** INVESTMENT PORTFOLIO MANAGEMENT

**Course description and objectives:**

This course introduces risk-return concepts, debt and equity securities, and options and futures contracts. The course uses a Portfolio Project to evaluate the array of financial instrument investment alternatives and their risk profile. Participants analyze expected return characteristics, individually and in combination within a portfolio. Different investment strategies and valuation models are used to understand basic investment principles and practices. Upon completing this course, successful students will be able to: Gain a firm grasp of theoretical concepts underlying modern portfolio theory, Understand
and apply theoretical concepts to real-world investment analysis. Learn about and evaluate investment alternatives, their risks, and their expected return characteristics. Discuss investment strategies and valuation models while applying them to sample client situations and Calculate various measures of investment risk and return used in portfolio analysis and construction; understand methods of evaluating investment results.

**Recommended/ Reference Books:**
1. Investments Analysis and management (10th Ed) by Charles P. Jones
2. Investment (5th E) by Robert C. Radcliffe
Course Name: FINANCIAL STATEMENTS ANALYSIS

Course Objectives:
The financial statement analysis course is designed to prepare future managers to effectively analyze, interpret, and evaluate an entity's financial statements and related information (e.g., attestation reports). The entities subject to analysis will be both private (e.g., owner managed) and public (e.g., where the firm’s securities trade on a stock exchange) and will be drawn from a wide variety of different industries. Tools for interpreting cash flow patterns, for recognizing trends in financial performance (ratio analysis), and for firm valuation will be discussed. The importance for any organization of creating an effective financial reporting strategy will also be examined. The course will also expose students to future trends in financial reporting, both national and international.

3. Islamic Banking - **Dr. Muhammad Imran Ashraf Usmani** Published, Darul Ishaat Karachi Edition (2002).
Recommendations by NCRC

The following recommendations and suggestions are made by Committee for BS/MS (Commerce) and commerce education as whole in Pakistan:

(A) BCom (Hons) degree is still being offered in some universities so it can be allowed till alternative arrangements made by parent university, however, BS (Commerce) 4 years does not need to be called/written i.e. (Hons).

(B) Old MCom degree is also being offered in some institutes/colleges and it can be also carried on till alternative arrangements made by parent universities through their BoS of BS (Commerce) etc. HEC may give a deadline for old MCom/MBA (16 years).

(C) The entry requirement/test should be same for all new intakes of the universities to maintain same standards of commerce education in Pakistan.

(D) In MS/MPhil (Commerce) the entry requirement for admission into program will be 16 years of education. The incoming students with a 16 years degree such as BBA, BS (Com), BS Accounting and Finance, BCom (4 years) and 16 years master degrees such as MCom and other relevant qualifications may be allowed to Join the MS program.

(E) In MS/MPhil(Commerce) the thesis or research work(3+3) of 6 credit hours is mandatory, however, taught based options may also offered in some cases to award 18 years of HEC education policy.

(F) Some deficiencies courses (for taught based degrees) may be introduced by individual university for admission in PhD program.

(G) Some center of excellence should be established in every province to share the knowledge, professional skills, academic culture and experiences of senior professors.

(H) The HEC should give final deadline to get accreditations from the relevant NBEAC as per its policy to ensure quality of commerce education throughout the country.

(I) There is need to restructure the commerce education policy at degree colleges level by provincial governments in coordination with institutes of higher learning/universities.
(J) All the above course titles are suggestive, however, the identified areas are compulsory and may be taught as independent course however the given course outlines can be upgraded/developed by the concerned teachers and two courses of 3 credit hours each may be given in lieu of thesis as per HEC policy.

(K) The Commerce education/degree programs should be considered separate/independent and must not be mixed with MBA and Economics program etc.

(L) PhD (Commerce) should be introduced in near future for the commerce graduates/MS degree holders in public sector universities to cater the need of university education.
